

M'KINLEY IS ELECTED SPEAKER OF HOUSE

William McKinley of Chicago, Democrat, Is Elected to Speakership of House of Representatives on Seventy-Sixth Ballot, Receiving 83 Votes

Victory Was Brought About by a Combination of Thirty-six Democratic Votes, Forty-six Republican Votes and One Progressive--Republicans Expect to Land Six Year Term Senatorship--Col. James H. Lewis' Election to Senate is Doubtful--Successful Candidate Has Personal Endorsement of Governor-Elect Dunne and Will be in Line With New Administration--Newly Elected Democratic State Officers Will be Inaugurated Next Monday Afternoon.

SPRINGFIELD, ILL., JAN. 29.—William McKinley, of Chicago, was elected speaker of the house of representatives of the forty-eighth general assembly at 6:45 this afternoon.

His election marked the breaking of a deadlock the like of which has never before been recorded in the history of the state. Since January 8th, the house members have been tied fast preventing the induction into office of the newly elected Democratic administration and balloting on the United States senatorship, dates for two events specifically fixed by the state constitution. Mr. McKinley's victory was brought about by a combination of Democratic and Republican votes with one Progressive, breaking the ties of party caucus and casting his vote with the winning combination. Eighty-three votes were cast for him on the seventy-sixth and final ballot. Thirty-six Democrats, forty-six Republicans and one Progressive made up the vote.

On the same roll call sixty-four other votes were distributed as follows:

Carter, Progressive, 24; Hubbard, Democrat, 17; Rapp, Democrat, 5; Kane, Democrat, 5; McLaughlin, Democrat, 4; Tice, Republican, 4; Stedman, Socialist, 4; Hoffman, Democrat, 1.

Furnishes Spectacular Ending.

Five members were absent. Not even the election of William Lorimer to the United States senate four years ago furnished a more spectacular scene than that attending the breaking of the deadlock. There were speeches galore, and much explaining of votes. There were also charges sufficiently direct to provoke responses from the members to whom they were directed.

While no suggestion of boodles was offered and every speaker protesting against the new alignment was careful to state his conviction that no money bribe should be resorted to, it was freely charged that a deal had been made involving the two United States senatorships. For this reason a number of Democrats, who had voted for McKinley on previous roll calls declined to support him on the final ballot. So direct were the charges that a deal had been consummated that McKinley rose at his desk in the midst of the final roll call and made a statement to the house, denying that he was a party to any understanding regarding the senatorships or any other matter and calling upon the members to either vote for him or for some other candidate as they saw fit, with his pledge that he knew of no deal to elevate him to the speakership, and that if elected, he would preside over the whole house, impartially, and to the best of his ability.

Expect Senatorship.

Although he questioned Mr. McKinley's statement that he was not a party to any understanding that brought about his election, leaders of the Republican side do not deny that they expect to land the six year term senatorship. They have stated openly from the outset that the deadlock was a Democratic quarrel with which they were not concerned and they would not help their political opponents out of their difficulty without an understanding on the senatorships. In this position they stood firm through out the three weeks of balloting, not a Republican breaking ranks until they practically all went together. With the election of Speaker McKinley, it is believed the chances for Col. James Hamilton Lewis of Chicago to become United States senator for the next six years was put in jeopardy.

Law Partner of O'Hara.

Col. Lewis was designated in the primaries last April by the Democratic voters as the party candidate for the full term to succeed Shelby M. Cullom. The election of Speaker McKinley is unique in more than one respect. It is the first time in the history of the Illinois legislature that a member serving his first term has been elected speaker. Two notable coincidences also are that he should be elected on McKinley day, observed in memory of the martyred president of the same name and the fact that Speaker McKinley's law partner in Chicago is Barrett O'Hara the newly elected lieutenant governor, so that the two members of the firm will preside over both branches of the general branches at the same time.

Figured in Running From First. While the successful candidate

was classed as a "darkhorse" winner he has figured in the running from the first day. He was voted for the first time on the fifth ballot. At no time until the final day, however, was there any indication that he would win. He was classed as friendly to Roger C. Sullivan of Chicago, but a strong Dunne man, coming from the governor-elect's senatorial district and having performed valiant services for the gubernatorial candidate in the last campaign. Out of the total of seventy-six roll calls, McKinley was voted for on fifty.

Has Endorsement of Dunne.

The fact that he was known to have the personal endorsement of Governor-elect Dunne for the speakership brought to him a number of Democratic votes on roll calls throughout the deadlock and also made a haven of comparative safety for obstructionists, seeking a place of refuge when pressure was brought to bear on them to support candidate Rapp. While the first victory of Mr. McKinley made him only temporary speaker it was claimed the final success, the matter of electing him permanent speaker being only a formality. On the roll call on permanent speaker he received 119 votes, the four Socialists continuing to vote for their candidate Stedman, and four Progressives, Curran, Fitz, Harquest and Monroe, not voting.

Bert McCann is Clerk.

Following the permanent election of Speaker McKinley, the house elected Bert McCann of Bloomington clerk. He received 148 votes, four members being absent.

A committee consisting of Representatives Dudgeon, Hilton, Grunau, King and Baker was named to inform Governor Deneen that the house was organized. Owing to the late hour, the governor did not present his message to the house. It will be sent to both senate and house tomorrow morning. Following is the roll call on the 76th ballot:

Total number of votes cast 147.

Crowds Ordered to Galleries.
Just previous to the taking of the sixty-sixth ballot on the speakership at this morning's session of the house, several hundred non-members were ordered from the floor to the galleries by Secretary of State Doyle. Unable to find standing room in the

already packed galleries, scores of interested men, some of them lobbyists, waited in the rotunda and corridors of the statehouse while messengers kept them informed of the progress of the balloting.

Leaders of the Democrats, Republicans, Progressives and Socialists held a number of late conferences just before the house was called to order by Secretary Doyle. William L. O'Donnell, Governor-elect Edward F. Dunne's chief political advisor, consulted with a number of Democratic members from time to time on fifty.

The sixty-sixth ballot was interrupted by several brief flashes of near o'clock.

O'Rourke Submits Plan.

Representative J. J. O'Rourke of Chicago arose to submit a plan of action for the consideration of the members.

"I suggest," said Representative O'Rourke, "that we proceed on a basis of the representation of the four political parties having membership here. The Democrats have 73 members, the Republicans 50, the Progressives 25 and the Socialists 14. Now I urge that the Democrats be allowed to put three Democratic candidates in the field for the speakership, that the Republicans be allowed to put two candidates (also Democratic) in the race, the Progressives be given one and the Socialists one. All candidates to be Democratic as, I believe it is the general opinion that we should elect a Democratic speaker. Then, when these candidates have been put in the field and all others taken out, let us eliminate the low man on each successive ballot. If you will adopt that plan, gentlemen, we will wind up this fight and elect a speaker before sunset today. Here is a way out and I urge that it be given serious consideration."

But Representative O'Rourke's suggestion was not taken seriously by the body of the house.

Dunne and Browne Mix.

Representative William H. Dunne of Essex, Progressive, had a brief verbal passage at arms with Representative Lee O'Neill Browne of Ottawa. In urging members to vote for Rapp and break the deadlock, Dunne, apparently misquoted a recent speech made by Browne. The latter interrupted to say:

"If the rest of the gentleman's understanding is no more clear than is exhibited in this remark, I arise to state that little attention should be given him."

Result of the sixty-sixth ballot: Tice, 50; Rapp, 64; McLaughlin, 18; Hubbard, 1; Stedman, 4; Ryan, 1; Hoffman, 4; McKinley, 1; Cline, 2. Total, 148. Absent, 4. Necessary to elect, 77.

Result of the sixty-seventh ballot: Tice, 50; Rapp, 64; McLaughlin, 19; Hubbard, 1; Stedman, 4; Ryan, 1; Hoffman, 4; McKinley, 1; Cline, 1. Total, 147. Absent, 5.

On the sixty-eighth ballot, came the first break, long threatened, in the Progressives' ranks. Representative Frank J. Snite of Chicago refused to vote for Rapp with the other Progressives on this ballot. He was recorded as "present and not voting."

Result of the sixty-ninth ballot: Tice, 50; Rapp, 64; McLaughlin, 19; Hubbard, 1; Stedman, 4; Ryan, 1; Hoffman, 4; McKinley, 2. Total, 147. Absent, 4. Present and not voting, 1.

Result of the seventieth ballot: Tice, 50; Rapp, 64; McLaughlin, 20; Hubbard, 1; Stedman, 4; Ryan, 1; Hoffman, 4; McKinley, 2. Total, 142. Absent, 9. Present and not voting, 1.

At this juncture, Representative John Grunau of Chicago, Progressive, moved that the house take a recess until 3 o'clock this afternoon. Representative Michael L. Igoo of Chicago, a Dunne Democrat, amended Grunau's motion in an effort to make the recess extend until 4 o'clock.

Representative Lee O'Neill Browne of Ottawa moved as a substitute that both the Grunau and Igoo motion and amendment be tabled. This was done on a viva voce vote and the house proceeded to the seventy-first roll call for the election of a speaker.

Result of the seventy-first ballot: Tice, 50; Rapp, 62; McLaughlin, 19; Hubbard, 1; Stedman, 4; Ryan, 1; Hoffman, 4; McKinley, 2. Total, 143. Absent, 8. Present and not voting, 1.

Representative Snite, Progressive, of Chicago, continued to refrain from voting.

Result of the seventy-second ballot: Tice, 50; Rapp, 61; McLaughlin, 19; Hubbard, 1; Stedman, 4; Ryan, 1; Hoffman, 4; McKinley, 14; Cline, 1. Total, 145. Absent, 6. Present and not voting, 1.

Result of the seventy-third ballot: Tice, 50; Rapp, 61; McLaughlin, 19; Hubbard, 1; Stedman, 4; Ryan, 1; Hoffman, 4; McKinley, 14; Cline, 1. Total, 145. Absent, 6. Present and not voting, 1.

Busy Day in Senate.

Ten joint resolutions and forty-two bills were introduced in the senate today. Among the resolutions were three providing for constitutional amendments—giving the general assembly power over the assessment of personal property; initiative and referendum, and permitting more than one constitutional amendment may be voted on at one election.

Another resolution asks Illinois members of congress to support a bill providing for the enactment of uniform marriage and divorce laws throughout the United States. The bills create a state board of police commissioners for cities of more than 100,000 population; public service commission; state license and control of private banks, state supervision of investment companies; for maximum price of text books; exempting from assessment all real estate; state tuberculosis sanitarium; fixing penalty three to twenty years for theft of automobiles, and anti-pass legislation.

Senate Bills and Resolutions.

A flood of bills and resolutions descended upon the senate this morning, this being the first day for the transaction of legislative business. Nearly all were recognized as old friends that had been introduced at previous sessions.

Secretary of State Doyle transmitted to the senate the papers filed in his office in the five contests for senate seats. The matter was referred to the elections committee.

Following are the contests: Sixth district—Stapleton vs. Harris, and Brown vs. Harris.

Eighteenth district—Boulevard vs. Daery.

Twenty-second district—Bines vs. Bailey.

Thirty-fourth district—Irvin vs. Hamilton.

Forty-fourth district—Harwood vs. Keller.

Resolutions were offered as follows: Senate Joint Resolution No. 2 (Magill), Ratifying the proposed amendment to the constitution of the United States providing for the election of United States senators by direct vote of the people.

Senate Joint Resolution No. 3 (Magill), Providing for submitting a proposed constitutional amendment adopting the initiative and referendum. Sent to the committee on constitutional amendments.

Senate Joint Resolution No. 4 (Magill), Providing for submitting a proposed constitutional amendment abolishing minority representation in the legislature. Sent to the committee on constitutional amendments.

Senate Joint Resolution No. 5 (Magill), Limiting amount to be paid to contestants and contestees in legislative election contests to not exceeding \$500 for the sitting members, \$500 for a successful contestant and nothing for an unsuccessful contestant. S. J. R. 6 (Jul). Submitting a proposed amendment to Art. 9 of the constitution giving the general assembly power over the assessment of personal property. To the committee on constitutional amendments.

S. J. R. 7 (O'Connor), Petitioning Illinois members of congress to support a bill providing for the enactment of uniform marriage and divorce laws throughout the U. S. S. J. R. 8 (O'Connor), Creating a joint committee of senators and house members to examine the legislative journals daily to see that they are kept in the manner laid down by the supreme court in the University of Illinois case.

S. J. R. 9 (Jones), Providing for a constitutional amendment adopting the initiative and referendum.

S. J. R. 10 (Cornwell), Submitting a constitutional amendment permitting more than one constitutional amendment may be voted on at one election.

Forty-two Bills Introduced.

NOTE TO RECHAD ENDS CONFERENCE

PEACE NEGOTIATIONS ARE FINALLY BROKEN OFF

Unless Turkey's Note to be Delivered to Powers Today Contains Fresh Proposals Balkan Delegates Will Leave London Within A Week.

LONDON, JAN. 29.—The peace negotiations, which reached a deadlock over the cession of Adrianople on January 6, were finally broken today by a note which the plenipotentiaries of the Balkan allies presented to Rechad Pasha, head of the Turkish delegation.

Notwithstanding this rupture there are still optimists in the diplomatic world who hope a resumption of the war yet may be averted, either through fresh proposals that Turkey is reported to be including in the note she will deliver to the powers tomorrow, or through the fall of Adrianople before activities can be begun again.

A majority of the Balkan delegates refuse to admit the likelihood of either contingency, believing that the life of the Young Turk government depends upon the resumption of the war even though the allies were willing to postpone the conflict. They are of the opinion that the present failure of diplomacy is, at the worst, only an interlude, however, for they will leave four representatives in London to undertake the settlement again.

Rechad Pasha, after receiving the note, said:

"The consequences may be of the gravest nature. The responsibility lies not alone with the allies, but with the powers who encouraged the Balkan states and have shown no fairness toward Turkey, although before the war they had solemnly proclaimed the principle of the unchangeability on the status quo."

To Attack Adrianople.

The plan of the allied governments so far as the plenipotentiaries are informed is to concentrate their armies on Adrianople immediately after the expiration of the prescribed four days. If the surrender of that fortress does not occur in the meantime, they believe that in a few days bombardment by the big siege batteries which now surround Adrianople will bring about its capitulation. The Balkan representatives declare that all reports that Roumania would aid Bulgaria against Turkey are unfounded, and they add that if Roumania should take advantage of the opportunity to gain her territorial claims by force while the Bulgarian army is engaged with Turkey, Bulgaria would let her occupy the territory she demands. But as soon as the Bulgarian army disposed of the Turks, the Bulgars would turn their attention to the Roumanians and attempt to make them pay dearly for this racial disloyalty which the Bulgars consider would be treason. The allies expect that a preliminary treaty of peace will be signed in Adrianople by the victorious Bulgarian and Serbian generals and that will be embodied in the treaty which will be concluded in London, for which each delegation is leaving one representative in London to await the re-opening of the conference.

Delegates Leave Monday.

Most of the other delegates will leave here before Monday. The Greek premier, M. Venizelos, will visit Vienna, Belgrade, Sofia and Saloniki on his homeward journey and this is considered tangible proof that the allies are preserving that unity that astonished Europe at the beginning of the war.

The Balkan delegates reiterate that the allies are agreed on all questions, being fully cognizant of the fact that their power lies in maintaining and strengthening their compact. Thus it has been arranged in general terms that Saloniki shall be under the co-dominion of Bulgaria, Serbia and Greece, and that if differences arise between the members of the alliance which cannot be arranged amicably, the contending parties must defer to arbitration.

Dr. Daneff, head of the Bulgarian delegation, and M. Mishu, the Roumanian minister to Great Britain, signed a protocol today, embodying the views of both nations on the Roumanian claims for territory which would give her Silistria.

The protocol will furnish the basis for the negotiations. Roumania bases her demands on the argument that the war has occasioned such changes in the political equilibrium that guarantees for the future friendship of the two nations have become necessary. The Bulgarians declare that Roumania has increased her demands since a renewal of the war has been threatened and assert that no Bulgarian government could grant the cession of the territory Roumania asks for.

DEMOCRATS HAVE SAFE MAJORITY IN SENATE

ELECTION OF SAULSBURY OF DELAWARE ADDS TO THEIR POWER

Now Have Majority of Two—Party Leaders Believe They Have Safe Margin For Tariff and Legislative Action.

WASHINGTON, JAN. 29.—With the election today of Willard Saulsbury as United States senator from Delaware the Democratic strength in the next senate swung from the precarious figure of 48 or exactly one-half of the senate, to the safer total of 49, a majority of two.

Mr. Saulsbury's election, added to the victory recently secured in Tennessee, assures the Democratic party absolute control of the senate after March 4. The vote of Vice-president Marshall would have been the deciding factor in any event but the addition of another Democratic vote to the column gives the party leaders what they believe to be a safe margin for tariff and legislative action.

Contests still exist in the legislatures of New Hampshire, West Virginia and Illinois, with a total of four senators to be elected about whose political affiliations doubt now exists. A victory in any one of these states would so materially strengthen the Democratic party that the senate would be completely removed from the element of uncertainty. The attitude of the Progressives and the Progressive Republicans upon tariff matters is as yet unknown, but the margin of strength promised to the Democrats makes it unnecessary it is believed to count upon any combinations with the Progressives.

Of the entire membership of 96 senators, 63 will hold-over beyond March 4. Of these 32 are Republicans and 31 Democrats. The terms of 32 senators expire in March and there is an additional vacancy in Illinois. Thus far 17 Democratic senators have been elected and the election of Senator Bacon in Georgia is certain, making 18 Democrats to take the oath of office March 4. The opposition forces including both the Republicans and the Progressives have elected 11 new senators. The senate after March 4 will stand as follows, if the deadlocks are not broken in Illinois, New Hampshire and West Virginia: Democrats, 49.

Republicans and Progressives, 43.

YALE ALUMNI ASSOCIATION GREETES TAFT AT ANNUAL BANQUET

In Speech President Attacks Some of the Modern Professors of Political Economy.

Washington, Jan. 29.—The local Yale Alumni association at its annual banquet tonight greeted and bade farewell to President Taft, a long cheer with "Taft, Taft, Taft," at the end, welcomed the president to the banquet hall and the strains of the "Holla song" and of "Here's to Good Old Yale, Drink Her Down," with other college songs rang out during the evening.

The president declared that when he next met with the Washington Yale alumni it would be "as a member of the faculty come back to tell of the needs of the university."

In his speech the president attacked some of the modern professors of political economy, whose "heads are in the clouds, and who have lost all sense of proportion as to what is valuable in present civilization and what we must anchor to. I want to help to bring the students of the university to realize what it means to be an American now, and what benefits this country, what its constitution gives us. I think we are enjoying many benefits without realizing how much self-sacrifice it took to bring them about."

SENATORS ELECTED.

Delaware—Willard Saulsbury, Democrat; election ratified in joint session.
Arkansas—Joseph T. Robinson, Republican.
Wyoming—Francis E. Warren, Republican.
Nevada—Key Pittman, Republican.
New Mexico—A. B. Fall, Republican.

WEATHER INDICATIONS AND TEMPERATURES.

Washington, Jan. 28.—For Illinois: Fair Thursday; Friday rain or snow in south, snow in north portion, colder, moderate south winds, shifting to northwest.

Chicago, Jan. 29.—Current, maximum and minimum temperatures today were:

	Current	High	Low

District of Columbia appropriation bill carrying \$11,095,379 was reported.

Adoption resolution approving fine arts commission plans for Lincoln Memorial.

Adjourned at 5:04 p. m., until noon Thursday.

WASHINGTON, JAN. 29.—The house today adopted the joint resolution approving plans for the fine arts commission for a \$2,000,000 memorial to the memory of Abraham Lincoln in this city. The resolution already had passed the senate and now goes to the president for his signature. It passed the house without amendment after that body had debated the project for hours during which several propositions were submitted as substitutes. All were ruled out on points of order.

Unlike the proceedings of the house last Wednesday when a filibuster by the Democrats prevented action on the project, the house today was practically unanimous in the adoption of the resolution. In the debate on the measure sectional feeling was obliterated and representatives from the north and south joined in tribute to Lincoln.

The substitute proposal of Representative Borland of Missouri, for a national highway between Washington and Gettysburg, received little support. Representative Stevens of Texas proposed the erection of a huge assembly hall in Washington to be known as the Lincoln memorial hall, as a substitute for the monument, but it also was ruled out as Representative Sims, suggestion of a memorial arch.

Plans of the fine arts commission call for the erection of the monument in Potomac park, just south of the white house to be housed by a Greek temple. An appropriation of \$2,000,000 already has been made for its construction.

Representatives Mann, Evans, Cannon, James, McCall, Henry, Humphries of Mississippi and others led in the fight for the adoption of the resolution.

Defeat For Republicans.

The second skirmish between Republicans and Democrats in the senate over President Taft's appointments resulted today in defeat for the Republicans. As a result the Republican leaders had less confidence tonight in their ability to break up the Democratic opposition and to force action upon some of the hundreds of pending appointments. A motion for an executive session, made early in the day by Senator Cullom was lost on a tie vote, 31 to 31.

The Democrats drew to their aid Senators Bristow and LaFollette, Republicans and Poindexter, Progressive. After a thorough canvass of the senate later Republican leaders could see little chance of breaking this deadlock as absent members were equally divided between the two parties. It is expected that another effort will be made Friday by the Republicans to take up consideration of the Taft appointments. The Democratic forces are prepared to continue the filibuster even should the Republicans secure enough votes to force the senate into executive session.

HORSES AND MULES INCREASE IN VALUE

REPORT SHOWS GAIN IN NUMBER AND VALUE PER HEAD

While the Number of Animals on the Farm Increased the Number of Food Animals Decreased—Milch Cows Decreased 202,000 During Year.

Washington, Jan. 29.—The introduction of the automobile on farms of the United States has not displaced the horse or mule, for the latest estimate of the number of these animals on farms January 18th this year, announced today by the department of agriculture shows more horses than ever before, except in 1909 and 1910 and more mules than in any other year on record. Horses and mules were of greater value than ever before except in 1911. The number of horses increased 58,000 over last year and mules increased 24,000. While the number of animals on the farm increased the number of food animals decreased. Milch cows decreased 202,000 since January 1st, 1912, other cattle decreased 1,230,000; sheep decreased 800,000 and swine decreased 4,232,000.

In average value per head, compared with 1912, horses increased \$483; mules \$3.80; milch cows \$5.63; other cattle \$5.16; sheep 47 cents; swine \$1.86. In total value the increases were:

Horses	\$105,528,000
Mules	19,588,000
Milch cows	107,369,000
Other cattle	159,581,000
Sheep	21,619,000
Swine	79,781,000

The total value of all farm animals increased \$493,456,000 or 9.9 per cent over 1912.

It will be noted that Illinois college is to play Eureka college the first game of the afternoon March 6. If Illinois wins from Eureka then on Friday Illinois will play the winner of the Wesleyan-Williams and Vashit contest, with all probability that Wesleyan will be the winner. Eureka has not a regular organized team, but as yet have not entered the committee that they will not field a team. If they should drop out then some changes will be made that will materially effect Illinois. **Plays Normal Saturday.** Coach Harmon will take his Illinois basketball team to Normal Saturday for a game with the college there. Normal has a splendid team and thus far a good record. They have defeated Wesleyan, Lincoln and lost to Bradley by only one point. They will meet Williams and Vashit to day. The showing that Illinois made against Wesleyan in the last game gives the local athletes reason to believe that they ought to push the Normalites hard for the honors. **Form New League.** A new baseball league is the latest boom in the northern part of the state. The cities will include Gary and Michigan City, Ind., and Aurora, Elgin, Rockford, Joliet, Chicago Heights and East Chicago. **Route to Petersburg.** Route college high school will go to Petersburg Friday night to meet the high school of that place. In the last game here the score was 29 to 19 in favor of Route.

ANNUAL NATIONAL HOBO CONVENTION IN NEW ORLEANS

First Session is Brought to Sudden Halt By the Appearance of "Jesus" Wesley. New Orleans, Jan. 29.—The annual National Hobo convention was opened here today, and the first session devoted almost entirely to speeches denunciatory of present day conditions generally. This was brought to a sudden halt and the rather noisy hall silenced during the afternoon the appearance of "Jesus" Wesley, who said he was a member of the "Brotherhood of Christ" and that he came from Heaven. He was allowed to speak, his address being devoted chiefly to an invitation to join the brotherhood.

ROSS ADDRESSES PLUMBERS

Springfield, Ill., Jan. 29.—David Ross, secretary of the state bureau of labor statistics, addressed the members of the Illinois Master Plumbers Association, in session here to day, expatiating the aims of the workman's compensation act and what he believes it will accomplish. At the session tonight Stanley E. Krebs spoke on advertising, salesmanship and business methods.

LINCOLN MEMORIAL PLANS APPROVED

(Continued from Page One.)

Wants to Tax Exports. Representative Humphrey of Washington, wants to tax American goods when they are exported as well as taking imports. With this object in view, he introduced a bill today as an amendment to the Payne-Aldrich tariff act which would provide for the levying of a tax on all exports, the tax to be the same as that on similar imported articles. **Adopt Education Bill.**

The Page vocational education bill authorizing a maximum appropriations of over \$14,000,000 for agricultural and trade educational work was adopted by the senate today as a substitute for the Lever-Smith bill which has passed the house. A fight extending over many days in which both sides of the senate had been devoted ended when a motion by Senator Page to substitute his original for the Lever bill was carried by a vote of 31 to 30.

The measure then passed the senate and will go to the house and ultimately to the committee. The original bill presented the maximum sum of approximately \$3,500,000 for the establishment of extension departments in the state agriculture colleges of the country.

The Page bill would establish courses of instruction in trades and industries, home economics and agriculture in the various public schools of secondary grade; providing for state agricultural schools, testing the plant breeding stations; the education of teachers and general extension work.

For Better Highways. Senator Jackson of Maryland today introduced a bill proposing a plan of federal co-operation with the states for highway improvement. The bill would authorize the government to pay one-half the cost of improving highways used by mail carriers, and would appropriate \$10,000,000 annually for the work.

Say Shoe Tariff Prohibitive. An unsuccessful fight to have the house committee on ways and means retain the present tariff of ten per cent ad valorem on shoes and boots occupied most of today's session. Chairman Underwood flatly told the gathering of representatives and the wholesale and retail shoe industries of the country that the tariff was now prohibitive; that there was no revenue and that retention of the present rates was impossible. Questions of the committee indicated a sentiment favorable to a big drop in those rates.

Mr. Underwood said the Democrats did not purpose to play favorites as between industries in the work of carrying out the party pledges for revision downward; that while he hoped there never would be a Democratic tariff so below the reasonable competitive basis as to close down any factory in the country, he and others of the committee wanted to write such rates as would stimulate a reasonable competition. He suggested that the people at the last election had rendered a verdict for "tariff for protection" instead of "for protection" and that "you cannot expect us to write a protective tariff even if only two per cent."

Defer Chinese Resolution. The senate resolution directing a recognition by this government of the Chinese republic received brief consideration today at the hands of the senate committee on foreign relations, but action was postponed. The suggestion was made that a minister had been received from the Asiatic republic which was equivalent to a mere formal recognition. Inquiry will be made on this point and if necessary the resolution will be considered at a future meeting.

Reject McGuire's Bill. Representative McGuire's bill to appropriate \$2,200,000 for government buildings on state fair grounds throughout the country was rejected today by the house agricultural committee. The bill proposed that the government acquire buildings on all state fair grounds, not controlled by private interests.

ELISHA T. FOX DIES AT EARLY MORNING HOUR

Former Well Known Resident of Sinclair Succumbs to Complication of Diseases.

Elisha T. Fox, died this (Thursday) morning at 2:20 o'clock at the family residence, 617 West College avenue, at the age of 73 years. He was born in Morgan county, Oct. 17, 1839 and was married to Miss Jennie Crouse of Murfreesville, Feb. 14, 1867. For a great many years the family resided in the Sinclair neighborhood and four years ago came to Jacksonville to make their home. For a long time Mr. Fox had not been a well man, but it was only the past few days that a complication of diseases set in which could not be conquered by medicine.

Mr. Fox was an honorable and widely known citizen and his passing away will be learned with much sorrow. He was a veteran of the civil war, being a member of the 101st Illinois regiment, Co. I. He was a member of the G. A. R. and also of Grace Methodist church.

Besides his wife he is survived by two daughters, Mrs. Amos Swain of Sinclair and Miss Laura Fox at home. He also leaves one brother, Noah Fox of Sinclair, three sisters, Mrs. Elizabeth Harrison of Jacksonville, Mrs. Ella Crouse of Murfreesville and Mrs. James Crouse of Lowder, and two grand children, Mrs. Sarah Reeve of this city is an aunt of the deceased. The funeral arrangements will be announced later.

FORTUNE TELLERS ARE PAID FOR THEIR TIME AND NOT NEWS

Chicago, Jan. 29.—Fortune tellers, clairvoyants, spiritualists, and others claiming to be able to furnish the public with news of the other world, recover lost property and locate hidden gold are paid for their time and not for the information they may give.

This was the opinion of the Illinois supreme court recently, in an opinion rendered in a case taken up from Chicago, involving the constitutionality of an act declaring such business unlawful. The case was cited today in Municipal Judge Mahoney's court on behalf of Hyman Leibowitz, a palmist and medium. The prisoner's dismissal was ordered.

**MEETS DEATH BY
HIS OWN HANDS**

CHARLES R. ESTES DRINKS CARBOLIC ACID.

Winchester Harness Dealer Found Dead in Office by Attorney Callans—Funeral Services Will Be Held Friday.

Charles R. Estes, a well known harness dealer of Winchester was found dead Wednesday morning at 9:30 o'clock in his office by Attorney John Callans, whom he had a few moments before called to his place of business. Mr. Estes had drunk a quantity of carbolic acid and it is thought that financial troubles was the cause of his deed.

Mr. Estes had purchased Tuesday evening from the City Drug store of Winchester, conducted by Robert Dawson, a small vial of carbolic acid, stating that his wife wanted it. On Wednesday morning he went back again and purchased another small vial of the acid, stating that he had broken the first bottle. When Mr. Callans arrived at the office Mr. Estes was lying close to his desk. He had poured the acid into a drinking cup. The body was still warm and a physician was summoned but all means failed to bring life back.

Coroner M. W. Quinn held an inquest in the afternoon with the following jury: George Hogan, foreman, James Hawk, Leo McLaughlin, John H. Coates, John E. Coultas and Charles Reeves. They gave in a verdict that "death was due to carbolic acid poisoning." After hearing all the evidence the jury was not prepared to say whether Mr. Estes took the poison with suicidal intent or whether he took the acid by mistake. Attorney Callans in his testimony stated that he had presented some bills to Mr. Estes and that he (Estes) had called him over the phone and he thought presumably to make a settlement. The body was taken to the undertaking parlors of T. C. Hill, where the inquest was held.

Mr. Estes was about 40 years of age and was the son of the late Jesse Estes, who for a great many years conducted a harness business in Winchester. After the death of the father four years ago the business passed into the hands of his sons. He was married to Sallie Maroney about twelve years ago and she survives him, together with four children. He also leaves five sisters, Mrs. M. L. Markille of this city, Mrs. S. M. Martin of Nebraska; Misses Minerva and Kate Estes of Winchester and Mrs. J. E. Elder of California.

The funeral services will be conducted Friday morning at 10 o'clock.

SOCIAL EVENTS.

Wednesday evening the neighbors to the number of twenty-three gathered at the home of Mr. and Mrs. Edward Armstrong, east of the city, and took them completely by surprise. Mr. Armstrong recently completed remodeling his residence, which is quite large and modern throughout. Games and music furnished amusement for the evening and at a late hour light refreshments were served, after which the guests departed for their homes after having spent a pleasant evening with their host and hostess. Those present were Mr. and Mrs. Armstrong and son Evert, Mr. and Mrs. Thomas Boyd and daughter Fannie, James Baker and daughters Alice and Nettie, Mr. and Mrs. Homer Cully and sons Claude and Kenneth, Mr. and Mrs. Howard Cully, Mr. and Mrs. Harvey Davis and daughter Mary Ardelia, Edward Green and daughter Helen, Mr. and Mrs. S. O. Cromwell and daughter Agnes and sons Lloyd and Oliver, and Eldred Davis.

The Murrayville Domestic Science Club held its regular meeting Wednesday afternoon with Mrs. J. H. Spencer at her residence, and quite a number of members were present. Mrs. H. G. Strang led a discussion on the subject, "Fish as Food Value" and Mrs. Arthur Seymour gave a demonstration of marshmallow cream. Following this a social hour was enjoyed when delicious refreshments were served. Mrs. John R. Hill of this city was a guest of the club.

The members decided to hold their annual banquet February 14th at the residence of Mrs. H. G. Strang.

Misses Ethel and Besse Challans were hostesses to a number of friends at a novelty shower in honor of Miss Nola Cloud, at the home of their aunt, Mrs. Ed Challans, in Waverly. Miss Cloud is soon to marry their cousin, Earl Challans. The hours were from two until four o'clock and the time was pleasantly spent, an advertising contest being of special interest. In the contest Miss Florence Stice and Miss Nola Cloud tied, each receiving a prize. In the dining room a color scheme of pink and white was carried out. Refreshments were served.

**INE CROWD AT GRACE
M. E. CHURCH REVIVAL**

Rev. J. W. Miller Tells the Secret of How to Have a Successful Revival Meeting.

The fine weather is very encouraging to the Grace church people for their revival. The attendance has been increasing each evening as well as the interest. The day services are omitted so that a large amount of home visiting may be done.

The secret of a successful revival meeting was discussed by the pastor Rev. J. W. Miller in a sermon on the text, "Restore unto me the joy of thy salvation, then will I teach transgressors thy way and sinners will be converted unto thee." Ps. 51, 12-13. The tragic downfall of King David was vividly portrayed and the causes of his downfall. While David was one of the greatest of sinners, he was truly repentant. He has taught the Christian world what true repentance is. He has voiced the cry of those broken hearted over their sins for a hundred generations. He has taught the church that in order to be able to teach transgressors the way of life it must be at peace with God. It is absolutely impossible to help a sinner unless our own life is reconciled to God. Not only must the christian be right with God but right with his fellow men both in the church and out of it. A church that is divided cannot have God's blessing, and will never be able to bring sinners to its altars in true penitence. Unless christian men are right with men outside of the church, the man outside cannot be reached and helped into the kingdom. David has very clearly and truly outlined the method of successful christian work. God has approved that method for all the history of the church. We might just as well accept it right now if we expect to have a spiritual revival, the kind that comes from the throne of God.

There was a large number of the members who gathered about the altar for prayer and consecration. Deep feeling was manifest. The singing was fine. It is an inspiration to hear the beautiful songs sung with enthusiasm and power. The outlook is very encouraging for successful work and earnestness and persistent effort will bring good results.

A canvass of the church shows that there are one hundred families connected with the church, who have several members of the family not members. For instance there will be a member in the cradle roll, the only one of the family connected with the church. Again, a father or mother will belong, so the field is indeed a broad one in which the Grace church people are laboring. That so many families are outside of the fold shows what a big change can come to a city even though the "Billy" Sunday revival was held only a comparative short time ago. There are a great many who have letters and these are expected to be brought in from time to time.

Dunne Well Pleased.

Chicago, Jan. 29.—Governor-elect Dunne tonight expressed himself as well pleased with the selection of Speaker McKinley.

"Mr. McKinley is a young man of good character, and a progressive Democrat," Mr. Dunne said. "He is one of the men whom I have heretofore commended when their names were mentioned to me as candidates for the speakership. I believe he will make a fair and impartial speaker and will help carry out the pledges of the Democratic platform adopted at Peoria."

Holds First Public Office.

William McKinley speaker-elect of the forty-eighth general assembly was born on a farm in Clayton Co., Iowa, June 1st, 1879, where he remained until twenty years of age. He taught school some time in Iowa and for two years was principal of the Ashton, Iowa, high school. He went to Chicago in 1904, was admitted to the bar in 1907. Mr. McKinley was elected to the house on November 5, 1912, this being the first public office he ever held.

Utilities Commission Bill.

The utilities bill introduced in the senate today provides for two commissioners—one for Chicago, to be appointed by the mayor for the remainder of the state to be appointed by the governor. They are empowered to investigate all phases of the conduct and management, etc., on railroads, telegraph and telephone service, including street and elevated roads in cities. The commissions may regulate rates service and all else that may effect the public. Stock water is forbidden, as is also free passes, and discrimination.

The bill provides for adequate and safe service of railroads and street railways and for just and reasonable charges and switch and side track connections.

Penalties are provided for failure to comply with the commission's orders.

The railroad and warehouse commission is abolished. They are to turn over all their books and documents to the public utilities commission.

REBEL FORCES MOVE A NG

TEXAS BORDER TOWARD JUAREZ

Leave Guadalupe 1000 Strong

While Other Rebels Are Moving in From Below Juarez.

El Paso, Jan. 29.—Rebel forces located on the Texas border at Guadalupe during the present week today evacuated that town and began moving along the border toward Juarez. United States army officers estimate the rebel force to exceed 1,000, while other groups are reported moving in from below Juarez.

Four Texas rangers today defied the rebel army eight miles west of Fabins, Texas, when the rebels invaded American soil. The state police opened fire on what appeared to be hundreds of rebels in the bush, shooting two riders from their horses and capturing one of the wounded. The rebel chief declared that he did not know his men were on the American side.

GENERAL'S RECORD WILL NOT

SHIELD HIM FROM THE LAW

Fame of General Sickles Will Not Deter State of New York in Its Efforts to Get Back Stolen Funds.

Albany, N. Y., Jan. 29.—The fame of General Daniel E. Sickles, as a soldier, should not deter New York state in its efforts to collect the \$23,476 unaccounted for by the general, as chairman of the New York Monuments commission. This is the view advanced by Attorney General Carmody in a letter today to Mrs. Helen D. Longstreet of Gainesville, Ga., widow of the Confederate general.

In a telegram to Attorney General Carmody, Mrs. Longstreet offered to raise \$23,476 from the "ragged and maimed followers of Lee."

The attorney general says the state appropriated the money General Sickles is accused of retaining for his own use "for the erection of monuments to mark the resting places on the field of the Gettysburg to the brave soldiers who fell in defense of their country and to provide for a celebration upon the field of Gettysburg in which those living might participate, at the state's expense in a fitting manner."

Mr. Carmody says the state fully appreciates the claim General Sickles has upon the nation for the great service he rendered in the rebellion, "but even the fame of the soldier must not be used as a cloak or protection for the commission of crime, and it is nothing less than misdirected sympathy to undertake to so confuse the question involved as to make an ordinary prosecution for a crime seem like persecution and to elevate as a martyr a person who confesses his dereliction."

DETROIT DRIVING CLUB CANNOT ABIDE BY STEWARD'S DECISION

Directors Notify Stewards of Grand Circuit of Objection Ruling Limiting Amount of Money Won By a Horse.

Detroit, Jan. 29.—Directors of Driving club decided today to notify the stewards of the Grand Circuit that they cannot abide by the rule limiting the amount of money won by a horse. The reason given was that the rule might prevent the starting of the best trotter in the Merchants and Manufacturers \$10,000 stake, or the best pacer in the \$5,000 Chamber of Commerce stake.

When the stewards met at Pittsburgh they adopted a resolution whereby any trotter winning a gross of \$15,000 or any pacer winning \$10,000 gross shall not be eligible to start in any other early closing events.

GUARD TOO CLOSE IN BASKETBALL

Writer Outlines New Scheme Whereby Game Can Be Greatly Improved.

That the guarding feature in basketball is being overdone and that more attention should be paid to "loose" basketball is the opinion of those who have been following the game closely of late. Mr. Woodruff, sporting editor of the Tribune, has the following to say on the subject:

"Stereotyped basketball" is the latest. The close guarding game taught by college and school coaches makes a new mode of attack imperative for the team so guarded an attack that will increase opportunities for scoring.

The average basketball fan delights in seeing a game full of accurate and regular shooting just as the average baseball fan prefers a 7 to 6 score to a 1 to 0 score. He also delights in seeing the game worked fast and mechanically wherever possible.

Break Guarding.

The advancement of baseball and football along this line of unselfish team work has moved the progressive basketball coaches to think up a premeditated attack that will break up a close guarding game of the opposition and increase the scoring possibilities also.

For Team Work.

The problem is to break up the close guarding game and still encourage team work, a solution has been found in the introduction of the blocking game. The ones to do the blocking should be the guards, since they generally are better adapted for this work because of their heavier weight.

The forwards, generally speaking, are lighter, but the better shots and accordingly can be utilized to better advantage if freed from their glue-like adversaries by their own guards, who can do the prying, thereby giving the forwards free rein to shoot.

Right Moment.

The time to attack in baseball known as the psychological moment, is the second the opposition relaxes. This moment occurs not once in a basketball game, but often. Every time the ball goes out of bounds, or when the teams line up after the caging of a basket, is a moment of relaxation. In order to get the best results, "strike while the iron is hot," is a recognized law that fits this case exactly.

The plan of attack is to sacrifice the guards in the passing department of the game when the ball goes out of bounds or, better, to make them perform both the duties of a passer to his team mates and a blocker to the man of the opposition who tries to play the close guarding game on these occasions.

As the ball goes out of bounds the team which has caused it to do so immediately is put on the defensive.

The old method of the offensive team, which is still used, was to try to evade the defensive five by dodging tactics. The new game is to have the guards outguess the opposition by playing a guarding game when he (the opposition) feels they will run away.

Cites Points in Game.

However, it is not to be surmised that you play the man who tries to play you, but, on the contrary, you block one of his team mates while he is attempting to follow you. That is, if A is a guard, he picks out a man who tries to cover his forward and blocks this man for a second, so that his (A's) forward will get free at the time required to shoot a basket.

Cleverly executed, this act, if performed by both guards of the offensive forwards free, with the possible chance of a foul being called on the defensive team because the guards, while blocking also, are being guarded, putting two of the defensive team about one of the offensive.

The plays devised to put this style of attack into practical execution are the kind that require a hard, heady bunch of players. No players of a roving or slithering type can hope to attain success with them, and, like everything else, steady, persistent practice is the only means of gaining the desired end.

NOTES FOR FISHERMAN

The Illinois Fish Conservation Letter for January published at Hinsdale has the following notes:

Limitation of Catch.
 It cannot be gainsaid that the limitation of catch is a most wise and necessary precaution to provide against an excessive drain being placed on the sporting fisheries of the state, for not only are the numbers of black bass, pike, pickerel and pike perch limited in the localities in which angling for them can be enjoyed, but also, although credit must be given to the average sportsman of voluntarily limiting his catch to what he knows can be used, for the sale of these fishes is forbidden there are always to be found a minority of anglers whose chief aim and ambition is to secure a bag of inordinate size, to the extent, if possible, of establishing a record.

Washington, D. C., Jan. 29.—Pink carnations adorning the lapels of senators, representatives and private citizens marked the observance today of the seventieth anniversary of the birth of William McKinley. The pink carnation was the favorite flower of the late president, and ever since his tragic death his friends and admirers have followed the custom of wearing one of the blossoms at each recurring anniversary of his birth.

DEWEY'S RESIGNATION CAUSES STRIFE IN MOOSE PARTY.

Quarrel on Among Leaders About Party's Choice for Senatorship.

Chicago Journal: A bitter quarrel among leaders of the progressive party over the choice for United States senator, which promised to end in the circulation of a petition for the recall of Chauncey Dewey as chairman of the progressive state central committee, was revealed yesterday as the real reason for Dewey's withdrawal from that position.

In announcing his resignation, Mr. Dewey said that his business interest here and in the southwest required more attention than he could give them with the responsibilities of the chairmanship on his shoulders. Progressive factionalists, however, did not conceal that fact that a disagreement between factions led by Frank Funk, candidate for governor in the recent campaign, and Medill McCormick, both of whom want senatorship was the cause of his resignation.

"Funk Got Dewey's Scalp."
 "Frank Funk got Dewey's scalp," is the way one leader characterized the situation today. "Both Mr. Funk and Mr. McCormick want the endorsement for the senatorship. Mr. Dewey favored Mr. McCormick. As state chairman he sent telegrams to chairmen of county committees. These telegrams inquired about Mr. McCormick's qualifications in a tricky manner. The telegrams asked: 'Is Medill McCormick fit to be United States Senator?' or words to that effect. Of course the county chairmen, whether they favored Mr. McCormick or Mr. Funk answered that Mr. McCormick was fit."

"Mr. Dewey then took these telegrams to Springfield and showed them to progressives in the legislature. Frank Funk's friends got mad right away. Then Mr. McCormick sent some letters through the state saying unkind things about Mr. Funk. Might Withdraw Influence."

"The letters also said that unless the progressives supported Mr. McCormick for senator, a certain powerful influence in Chicago, close to Col. Roosevelt, would be withdrawn from the progressive party in the state."

"This only egged the Funk men on. They started a plan to recall Mr. Dewey. Mr. Dewey heard of it and quit forthwith."

GLITTER OF GOLD LACE.

New York, Jan. 29.—The imagination falters when it attempts to foretell the grandeur and magnificence of gold lace, multi-colored uniforms and bubbling spirits which will be seen at the eighty-seventh anniversary ball of New York's famous Old Guard in Madison Square Garden tomorrow night. The interior of the garden is being transformed for the occasion into a scene resembling an army camp. All the arena boxes are to be floored over and rows of tents erected upon the platform so formed. Some of these tents are reserved for the governors

of states and their military staffs, others for the commanding officers of the visiting military bodies.

Many famous military organizations are sending delegates to attend the function. Among those that will be represented by delegations of officers in rich and brilliant uniform will be the Putnam Phalanx of Hartford, the Ancient and Honorable Artillery of Boston, the Governor's Foot Guards of New Haven, the Worcester Continentals, the Minute Men of Washington, the Richmond Blues of Richmond, Va., the Providence Light Infantry, the State Fencibles of Philadelphia, and the Second Heavy Brigade Canadian Garrison Artillery of Montreal.

RAILROADS MAKE STATEMENT.

Fifty-Four Lines Say They are Willing to Arbitrate With Firemen.

Fifty-four railroads have joined in the following statement:
 "A strike is threatened by the firemen on all the eastern railroads. The strike vote now being taken among the 30,000 men affected will undoubtedly result in a vote pledging the men to walk out if their demands are not granted by the railroads."

"Such a strike would seriously interfere with, if not entirely interrupt the operation of all the railroads in eighteen states containing more than one half of the population of the United States. It is important that the public know what is liable to take place."

"The strike vote follows various conferences between railroad managers and representatives of the men. The latter, in their 'A True Statement' of these conferences, which has been circulated among the men in connection with a blank strike ballot, say:

"Evidence that the responsibility for a failure to arbitrate all matters in controversy (and thus avoid the turmoil incident to a strike ballot, and the distress that must result from strike), rests upon the railroads and not upon the locomotive firemen, is an important part of this statement."

"That the public may know how inaccurate the above statement is, the railroads in the territory affected desire it to be clearly understood that:

"First: The railroads are prepared to apply to the firemen—and have already communicated this to their committee—the conclusions embodied in the award of the board, which, to the satisfaction of the country, recently arbitrated the differences between the locomotive engineers and the railroads. The roads have also signified their willingness to grant certain increases in wages."

"Second: The railroads are prepared to arbitrate the present case independently by a board of five or seven men appointed by some such disinterested authorities as Chief Justice White of the United States supreme court, M. A. Knapp, presiding judge of the United States commerce court, and Dr. C. P. Neill, United States commissioner of labor, as was done in the engineers' case."

COUNTY TEACHERS WILL SUPPLY SCHOOL FACTS

Blanks For Reports on Property and Condition Sent Out By Supt. H. Montgomery.

Supt. H. C. Montgomery has recently sent to teachers blanks for the reports to be made out and sent to him concerning the schools under their care. This is only the second year these blanks have been used as prior to that another method was followed for securing the facts desired for the report made to the superintendent.

These blanks when filled out by principals or teachers are turned in to Supt. Montgomery and he will use part of the facts for his own records and part for the voluminous report Mr. Montgomery must later on make to the state superintendent. Teachers must also fill a similar report with school board clerk. Some of the facts about which teachers must give information are the following:

Name of school.
Enrollment for the year by grades.
Length of school year in months.
Actual number of days school was in session.
Whole number of different teachers employed during the year.
Number of eighth grade graduates or promotions.
Number of pupils paying tuition.
Number of regular teachers.
Are you a graduate of a college and state normal school? A college.
A state normal school. A four-year high school. If not a graduate, have you attended a state normal school? A high school?
Amount of salary earned by teachers.
Total days' attendance of all pupils enrolled.
Number of school houses.
Number of seats or sittings for study (capacity).
Value of school property: Sites and buildings; equipment, (furniture, library, apparatus, etc.)
How many years have you taught in this district.
Amount of all taxes levied for school purposes, made August, 1912.
Amount of bonded indebtedness.
Number of volumes in library exclusive of supplementary reading books for class use.

QUICK RELIEF FOR RHEUMATISM.

George W. Koon, Lawton, Mich., says: "Dr. Detchon's Relief for Rheumatism has given my wife wonderful benefit for rheumatism. She could not lift hand or foot, had to be lifted for two months. FRED BUFFE TO NEW YORK

Peoria Star: Fred Buffe, publicity agent of the Illinois Traction System, will leave this evening for New York City, where he will attend the mid-winter meeting of the American Electric Railway Transportation and Traffic Association, which will be held at the Hotel Astor.

Mr. Buffe has served on the passenger traffic committee of the association and was recently elected to the office of chairman of the committee. On Friday evening the railway men will be tendered a banquet at the Hotel Astor by the Manufacturer's Association. This is an annual fete of the association and members attend from all parts of the United States. Mr. Buffe expects to be in New York for about a week or ten days.

ESCAPED AFTER FIFTEEN YEARS

TO DISCUSS WATER QUESTION.
This evening an open meeting will be held by the Trades Assembly at the Lazer Temple tonight when the local water question will be discussed. J. A. Bellatti will explain the purpose of the special election which is to be held next Tuesday and there will probably be other speakers. A member of the assembly said last night that labor men were not opposed to the contract with the water company, but that they were merely seeking a little more enlightenment on the subject. The meeting tonight will be open to anyone who is interested and wishes to attend.

A CURIOUS COURT

It Is Held Annually When France Pays Tribute to Spain.

PRICE OF AN ANCIENT PEACE.

After More Than Five Centuries Three Calves Are Still Humbly Presented Each Year to the Haughty Descendants of the Victorious Spaniards.

Every year there takes place in the Pyrenean highlands a remarkable fete. It is held at the boundary stone of San Martin, which separates the French valley Bareton from the Spanish valley of Roncal. Every year the representatives of the French peasants assemble there in order to pay the Spaniards a tribute, which consists of three calves of the same age and the same color, and the delivery of the calves is accompanied by ceremonies which sufficiently indicate that the old inhabitants of the Roncal valley were once victorious over their neighbors.

At 9 o'clock in the morning the mayors of the various villages in the Bareton valley, bravely adorned with their blue, white and red scarfs of office, march up to the boundary stone. In front of the column walks a lad, with a pike, from the point of which flutters a little white pennon as a gaze of peace. The three calves are dragged in the rear of the procession at the end of long ropes. Calves and scarfs take up their position by the stone and await the arrival of the Spaniards.

They are soon visible in the distance. In front walks a man clad in sheepskins, who waves a red pennon at the end of a pike as a sign of war. Behind him walks the alcalde of Isaba, the principal village in the valley of Roncal, and following him come the alcaldes of the other villages, their staffs of office in their hands. The bulk of the procession consists of shepherds, stern looking fellows armed with old sabers and matchlocks.

The alcalde of Isaba is all glorious to behold in a long black garment fastened by gold buttons, a tall white ruff, tight fitting knee breeches, red silk stockings and buckled shoes. A sombrero covers his head, and in his hands he holds the staff adorned with silver knobs, the emblem in Spain of magisterial dignity.

As soon as the Spaniards reach the rendezvous the alcalde of Isaba steps to the front and addresses them in solemn ceremonial style:

"Are you come to pay tribute and swear friendship according to old custom and tradition?"

"That is the reason of our coming," answer the French.

Then the two standard bearers approach the boundary stone and lay their pikes crosswise upon it. After a few moments the Spaniard takes his up again, sticks it into French soil and then places it as before on the stone. On the cross formed by the two shafts the representatives of the two valleys swear to keep the peace with loyal mind.

Then follows the delivery of the three calves to the Spaniards. They are examined by a veterinary surgeon and accepted, after which all present take up their stations under a shady oak, and, following the example of the good St. Louis of France and Alfonso the Wise of Spain, the alcalde of Isaba enthrones himself among the gnarled roots of the oak and proceeds to act as a magistrate.

Shepherds and heathards pass before him and prefer their international complaints. The judge listens to both sides, bids them bring forward their witnesses and delivers judgment without delay, inflicting a fine on one, awarding compensation to another, punishing one and affording satisfaction to his victim.

After all the quarrels are settled the alcalde undertakes the appointment of the pasture guardians for both valleys, so that he enjoys even greater authority in the township of Bareton than the president of the republic himself. Finally, they all betake themselves to Spanish soil, where a Homeric feast is set out, and till late in the night the banquet goes on, the descendants of the old warlike mountain peoples drinking together in brotherly unity in commemoration of the conclusion of the peace of 1375 and the installation of the above ceremonies.

About 300 years after this treaty had been made the French began to refuse to pay the tribute, but after some negotiations they consented to continue it. In more modern times they tried to get the tribute commuted to a sum of money, but the Spaniards declined, but agreed to forego the right of guns in the direction of France as being a wound to French amour propre.—London Spectator.

RAILROAD NOTES.

The Chicago & Alton management has placed an order for twenty of the mikado type of freight locomotives and ten switch engines with the Baldwin Locomotive Works, and for ten passenger locomotives of the Pacific type with the American company, delivery to be made in May.

What is considered an encouraging development in the steel industry is the renewed demand for rails that has been witnessed within the past few days. One road has sent an inquiry for about 100,000 tons, while other recent inquiries bring the total to well over 150,000 tons now in the market. The Canton and Hankow railroad has placed an order for 5000 tons of steel rails with the United States Steel Products company. The Wheeling and Lake Erie has placed orders for 1500 hopper cars and the Rock Island has purchased 1000 box cars.

The Norfolk and Western is reported to have placed orders for 1000 box and 500 flat cars. The Atlantic Coast line is reported to have ordered 1000 box cars and the Chesapeake and Ohio 1200 box and hopper cars. The Fort Dodge, Des Moines and Southern railway has purchased 200 cars from the Lenoir Car company, and the Southern railroad has ordered 100 gondola and 50 hopper cars from the Cambria Steel company.

OLIVE TABLETS OIL THE BOWELS

A Physician's Substitute for Dangerous Calomel.

When you feel that your liver and bowels need help take Dr. Edwards' Olive Tablets. Substitute for Calomel. Calomel is effective, but dangerous—causing bad after-effects.

Olive Tablets are especially made to take the place of Calomel. Dr. Edwards for years has been Calomel's foe. He saw its dangers and its disadvantages in 17 years' practice, treating patients for all kinds of liver and bowel complaints. In his efforts to do without Calomel he developed his now famous little olive-oil-colored tablets. Olive Tablets are mild but effective. Safe and sure. Pleasant to take but unfailing in results.

Olive Tablets oil the bowels just enough to start Nature's own action, and they tone up the liver at the same time. They are made from a rare combination of vegetable compounds mixed with olive oil.

If you want to regain that feeling of joyous buoyancy and clear thought take Dr. Edwards' Olive Tablets. They work like a vacation. 10 and 25 cents per box.

FLOOD TO MUCH FOR ENGINEERS

Men Admit They are Powerless to Close Beulah Crevasse.

Washington, Jan. 29.—Army engineers concluded to day that they are practically powerless to contend with the great Beulah crevasse in the Mississippi levee system near Greenville, Miss. They can "tie" the ends of the broken levee, by the familiar process of driving piling deep into the soft soil and filling in with rock and brush so as to prevent further erosion of the levee, but it is believed to be quite impossible to close the gap before low water next summer. Meantime, according to Gen. Bixby, chief of engineers, who is personally familiar with the Yazoo country, no less than 1000 square miles of good cotton and corn land probably will be under water until April at least.

A number of Jacksonville people own land in Mississippi and in the region which would be greatly affected by the floods and are therefore greatly interested in conditions there. A number of these people have had private advices indicating that the conditions are not as serious as the above dispatch would indicate.

WAYMAN TO RUN FOR MAYOR.

John E. Wayman, former state's attorney of Cook county, is cultivating a boom for mayor of Chicago, according to the Chicago Journal. He will be a candidate for the Republican nomination in 1914 with the backing of the United Societies according to those who are helping spread the news.

In his nomination and election as state's attorney, the United Societies were generally held responsible for his success.

Mr. Wayman has moved from the

Madam—Whether you need flour today or not, you'll do well to trade with the dealer who sells Zephyr Flour

IN the retail trade, when a dealer gets the agency for Zephyr Flour, it is considered positive evidence that he stands high in his community as a man and high in the trade as a square merchant. It means, too, that the flours in his store are of highest quality.

**Zephyr
Flour**

We have spent endless care, time and money perfecting Zephyr Flour, the famous hard wheat flour of Kansas. We wash it and wash it and grind it and

grind it, watching it all the while. Cooks who use it get a reputation for their bread and cakes, their biscuit and pies.

It is so good, so sure, that we sell it with a positive guarantee to satisfy. Any Zephyr Flour dealer will, on request, return the money paid for any sack of Zephyr Flour that fails to please.

Save the chemist's test certificate of the wheat and flour, found in each sack of Zephyr Flour. It assures uniform high quality or another sack from your dealer or from us.

All calculations, based upon the average past seasons, have proven useless. While trade in general has been brisk and we have absolutely no complaint to make about our treatment at the hands of the people in Jacksonville and vicinity, we must say that there obviously has not been the usual demand for winter clothing of medium and heavy weight. Now, what we want to say is, that for the reason above, we have left some most astonishing bargains in this season's high grade Suits and Overcoats for men and boys and coats for women and children. HOW THIS WOMAN FOUND HEALTH

Would not give Lydia E. Pinkham's Vegetable Compound for All Rest of Medicine in the World.

Utica, Ohio.—"I suffered everything from a female weakness after baby came. I had numb spells and was dizzy, had black spots before my eyes, my back ached and I was so weak I could hardly stand up. My face was yellow, even my fingernails were colorless and I had displacement. I took Lydia E. Pinkham's Vegetable Compound and now I am stout, well and healthy. I can do all my own work and can walk to town and back and not get tired. I would not give your Vegetable Compound for all the rest of the medicines in the world. I tried doctor's medicines and they did me no good."—Mrs. MARY E. LEWINE, R. F. D. No. 3, Utica, Ohio.

Rheumatism Affects Lungs

Pneumonia, Bronchitis, Phthisis, Asthma and Anemia Often Directly the Result of Rheumatic Blood.

If you have a persistent, nagging bronchial cough beware of cough remedies. They are merely local in action, and if they do relieve it is the narcotics that do it. What you require is a blood purifier, a searching antidote that removes from the circulation the acid poisons that by their reflexes attack all weakened, susceptible spots and thus create local symptoms. The very best remedy known is Swift's Sure Specific. You will find it on sale in any drug store at \$1.00 per bottle. It goes straight into the blood, becomes an internal blood bath, wonderfully increases the red corpuscles, cures all the local fever spots and irritations, increases appetite, you take on flesh and feel a wonderful sense of renewed strength. Hundreds of people worried beyond control at cough, pains in the chest, sore throat and constant expectoration of thick mucus have experienced the most wonderful change after using S. S. S. All doubt and apprehension is gone, those peculiar pains and aches vanish, there follows a period of most intense rejoicing to find that worst fears were based entirely upon a mistaken notion that cough and chest pains come from the lungs. These are rheumatic conditions, and you will quickly realize it after using S. S. S. for a few days. Get a bottle of S. S. S. to-day at the drug store and then say good-bye to all those pains that have worried you.

Write to The Swift Specific Co., 127 Swift Bldg., Atlanta, Ga., for medical advice and wonderful facts concerning the greatest blood remedy ever known.

CHANCE FORECASTS.

Writers of Old Who Dimly Pointed to Modern Inventions.

Chance phrases in the literary works of other days describe with uncanny exactness inventions of far later times. For instance, we find in the "Prolusions" of Strada the Roman, which were published in the year 1617, what might be held to embody a crude description of wireless telegraphy.

Strada represents two friends as carrying on a correspondence by means of a "certain loudstone which has such virtue in it that, if it touches two needles when one of the needles begins to move, the other, although at ever so great a distance, moves at the same time and in the same manner."

In 1674 Robert Hooke published a work wherein he observed that as glasses improve the vision so ways might be found to improve our other senses. "It is not impossible," says he, "to hear a whisper at a distance of a furlong, and perhaps the nature of the thing would not make it impossible although that furlong should be ten times multiplied." This seems to be a fair forecast of the telephone.

In "Gulliver's Travels" Swift causes his hero to relate in the voyage to Laputa that the astronomers there "have likewise discovered the two lesser stars or satellites which revolve about Mars." This has been held to constitute a satire on sham science. Nevertheless Professor Asaph Hall a few years ago discovered the two tiny satellites.

It was more than 1,700 years ago that Lucian gave an account of the manner wherein the inhabitants of the moon drank "air squeezed or compressed into a goblet" so that it formed a kind of dew. This clearly suggests liquid air.

The same writer in "Vera Historia" humorously and at some length describes an aerial ship the sails of which were inflated by a whirlwind, thus impelling it through space to the moon.—Harper's.

SYSTEMS IN GAMBLING.

Monte Carlo Just Smiles at Them and Keeps on Winning.

There are only two games played at Monte Carlo—roulette and a simple card game called trente et quarante. One is assured that these games are played quite fairly and that the percentage in favor of the bank is 67 to 60. Whatever it may be, this certain percentage in favor of the tables overcomes all systems that human ingenuity can work out by any law of averages. M. Blanc will permit you to play any way you like, and to double your bet as often as you like until it reaches 6,000 francs at roulette or 20,000 francs at trente et quarante. Then you must begin over again, for it is quite clear that if one were permitted to double indefinitely it would only be a question of time and sufficient money to put M. Blanc out of business.

This it happens that M. Blanc, who takes no chance, wins against all those who are permitted to take any sort of chance they like. Sir Hiram Maxim disposed of all systems when he shattered a popular delusion in these words: "If red has come up twenty times in succession it is just as likely to come up at the twenty-first time as it would be if it had not come up before for a week." Each particular coup is governed altogether by the physical conditions existing at that particular instant. The ball spins round a great many times in a groove. When its momentum is used up it comes in contact with several pieces of brass and finally tumbles into a pocket in the wheel which is rotating in an opposite direction. It is a pure and unadulterated question of chance, and it is not influenced in the least by anything that has ever taken place before or that will take place in the future.—Melville Davison Post in Saturday Evening Post.

Bringing Up a Dog.

A writer in Country Life in America gives some advice on the bringing up of a dog. As he tells it, the process looks easy enough: "The first and most important lesson for a pup to learn is to stop anything he may be doing when you say 'Stop' and to continue when you say 'All right.' If well learned this will explain to him all future commands. After this comes the lesson to lie down when you command 'Down' and to stay down while you leave him. For this latter it is best to tie him to something and then if he does not drop when you call 'Down' from a distance return quickly and scolding, push him down forcibly. A cat's paw and a taste of food should be his reward if he does right."

Old Time School Hours.

In Scotland, up to the middle of the eighteenth century, the usual school hours were from 6 a. m. till 6 p. m., with two breaks of an hour each. Some schools opened an hour earlier and worked so long as daylight lasted. No alteration in the hours was made on Saturday, and even on Sunday a certain amount of school work was done. The holidays were restricted to a day at Candlemas and at Whitsun, and a fortnight in the autumn.

AND SAVE YOUR ENERGY,

says DR. CYRIL G. HOPKINS, soil expert at the Illinois Experiment Station, than continue farming on the plan of taking from and not putting back into the soil those things which are absolutely essential to permanent, successful agriculture.

And he proves this statement. But he does more. After showing with irrefutable facts just why the prevailing American method of farming is ruinous, he demonstrates how you can make your farm yield from 30 to 40 more bushels per acre.

PREPARING FOR WEDDING TO BE SOLEMNIZED IN PARIS.

Rich American Girl Will Marry Prince Michael Murat.

New York, Jan. 29.—According to word received from Paris, the final preparations have been made for the wedding in that city early next week of Miss Helena Stallo of Cincinnati and New York, a 20 year old girl, who possesses a fortune of many millions of dollars in her own right.

The lucky man to win her is Prince Michael Murat, a nephew of the ex-Empress Eugenie. Their engagement was announced less than a month by the father of the bride-elect.

Miss Stallo is the youngest daughter of Edmund K. Stallo and granddaughter of Alexander McDonald, who was a big man in financial circles in the middle west. Mr. McDonald died some three years ago in Long Beach, Cal., at the age of 82. His estate, which was estimated to be worth between \$15,000,000 and \$20,000,000, was left to his granddaughters Laura McDonald and Helena McDonald Stallo.

McDonald came to this country in 1851 and settled in Cincinnati. He was a partner of John D. Rockefeller in the oil business and was president of the Standard Oil Company of New Jersey a director of the Big Four railroad, of the Third National bank, and of the Carnegie Trust Co.

McDonald's only daughter married Edmund K. Stallo, now of New York city and Paris, and upon her death her two daughters went to live with their grandfather. He retired from business five years before his death. His granddaughters were his only descendants. He often said he would leave everything he had to them, and hoped they would marry for love,

without regard to the man's financial condition.

Upon the death of his first wife Stello married, in 1894, the divorced wife of Dan R. Hanna, son of Mark Hanna. She was May Harrington, a daughter of one of the wealthiest and most influential men in Cleveland. She divorced Hanna in 1898 on the ground of cruelty. Stallo's father was the late Judge Stallo, who was American minister to Rome during the first Cleveland administration.

After the death of their grandfather the Misses Stallo came to New York. For a while they lived at the Waldorf, and then went to the Plaza. In July, 1911, announcement was made of the engagement of Miss Helena Stallo to Nels Florman, then a resident of this city. Florman's parents were residents of Stockholm, Sweden. His grandfather was said to be an admiral in the Swedish navy and his father a captain in the same service. The young man himself was said to be a warm personal friend of King Gustav V of Sweden. But his engagement to Miss Stallo was summarily broken off when the story was published that he had been employed since his arrival in New York as a valet and massage artist, though his claims concerning his family were never disputed.

After the breaking of the engagement with Florman Miss Stallo and her family went abroad to reside. In Paris they have been living in a magnificent apartment on Rue de Lubeck. The house was formerly the Portuguese embassy. It is built in the Empire style and has been furnished with exquisite taste by the two Misses Stallo and the father. It is said that the house will be turned

over to Prince Murat and his bride after the wedding.

Prince Murat is the son of a Russian princess and is a lineal descendant from the famous Marshal Murat, who married Coroline Bonaparte. Prince Michael is a young man of about 25 years and is said to be tall and handsome. He speaks English and Russian perfectly.

The wedding is set for next Monday in the Church of St. Honore d'Eylau on Place Victor Hugo. Myron T. Herrick, American ambassador to France, and Col. Henry Waterson of Louisville are to act as witnesses for Miss Stallo, while the Grand Duke Paul of Russia will attend the bridegroom. The couple are to spend their honeymoon in Algiers. They are to pay a visit to America next summer and in the fall will return to Paris to make their future home. Mr. Stallo and his elder daughter, Miss Laura Stallo, will return to this city soon after the wedding.

Chronic Indigestion Permanently Cured.

ILLINOI LODGE PLANS ENTERTAINMENT

At the regular meeting of Illinois Lodge No. 4 Tuesday evening, a committee was appointed to arrange for an entertainment for the wives and children of the members of the lodge.

This is an annual affair and the families of the Odd Fellows look forward to the event with much pleasure. The program will be announced later as the committee has not yet made the arrangement.

The committee consists of Frank E. McDougall, T. S. Martin, Otis Erney, Joseph Ludwig and Lawrence D. Shebert.

A mean stuffy cold, with hoarse wheezy breathing is just the kind that runs into bronchitis or pneumonia. Don't trifle with such serious conditions but take Foley's Honey and Tar Compound promptly. Quick and beneficial results are just what you can expect from this great medicine. It soothes and heals the inflamed air passages. It stops the hoarse racking cough.—City Drug Store, J. A. Obermeyer.

AMERICAN FENCE

Geo. P. Pelung, of Hamburg, N. Y., says: "Chamberlain's Cough Remedy will break up a cold the quickest of anything I have ever used."

This remedy contains no opium or other narcotic. It is the most effective and is pleasant and safe to take. Try it. For sale by all dealers.

RATIFY PROPOSED DIRECT ELECTION

Des Moines, Iowa, Jan. 29.—Without a dissenting vote the proposed amendment to the federal constitution providing for the direct election of United States senators was ratified by the lower house of the Iowa legislature to day. The expected fight over the current resolution calling upon the state board of education to rescind recent changes made in the study courses of state educational institutions was prevented when Representative Klay objected to consideration by unanimous consent.

W. R. Fox, 193 W. Washington St., Noblesville, Ind., says: "After suffering many months with kidney troubles, after trying other remedies and prescriptions, I purchased a box of Foley Kidney Pills which not only did me more good than any other remedies I ever used, but have positively set my kidneys right. Other members of my family have used them with similar results." Take at the first sign of kidney trouble.—City Drug Store, J. A. Obermeyer.

ACCIDENTALLY SHOT.

Samuel Sears, a young man of Canton, Mo., was shot in the leg at his home Wednesday morning by his sister, Mrs. Della Weaver, who was handling a revolver. She was told it was not loaded. Sears was placed in a hospital, and although the wound is serious, it is thought he will recover.

GONE TO NEW ORLEANS.

Miss Lena Bruhn has gone to New Orleans where she will visit at the home of her sister, Mrs. Adolph Schlessler for a few weeks, and witness the Mardi Gras festivities.

NOTICE

To Farmers and Stock Raisers

We are now manufacturing under State License, the best Brand of hog food on market known as "SURE FATTEN HOG FOOD". It is far superior to any Brand of Hog food on the market to day. It is guaranteed under the Pure Food and Drugs Act, June 30th, 1906, Serial No. 47,673. Guaranteed analysis as follows:

Crude Fat 10.00 to 14 per cent
Crude Protein 52.50 to 60 per cent
Crude Fibre 1.00 to 3 per cent
Phosphate 10.00 to 12 per cent

What Is "Sure Fatten Hog Food"

It is a dark colored granular meal, made from meat residues, and it supplies the protein and phosphates necessary for compounding a balanced ration in most economical and palatable form.

It contains phosphates in proper proportion to insure strength of bone and frame work. In the corn belt bone development is a matter of serious consideration.

It is not a substitute for corn, but a small quantity fed in connection with corn or other grains gives a balanced ration.

It is the most economical source of digestible protein known, containing twice as much protein as oil meal and five times as much as middlings, shorts, shimpstuffs, or alfalfa meal.

TANKAGE is recommended by all leading experiment stations.

It is packed in one-hundred-pound burlap sack, plainly marked "SURE FATTEN HOG FOOD," analysis as above.

What "Sure Fatten Hog Food" Tankage Does.

It develops bone and muscle in young pigs and makes them grow. It matures a hog for market in two and three months quicker than corn alone, thereby, saving one third of the feed bill, one third of the labor, one third of the risk, increasing profits one third.

It grows better proportioned hogs, more meat, and more fat, hence market-topper hogs. SURE FATTEN HOG FOOD TANKAGE fed hogs ship well with small shrink.

While in nowise a medicine, it so fortifies and strengthens the system against attacks of disease germs that SURE FATTEN HOG FOOD TANKAGE fed hogs are universally healthy hogs.

FROM ALABAMA.

Mobile, Ala., Jan. 27, 1913.

Dear Journal: Here we are in one of the oldest towns of the United States, living on fish, oysters and bananas, feeling as well and a little better than we did in old Morgan, on pork, hominy and beans. This is quite a city, 75,000 population, counting the suburbs, and you all know that all cities count the suburbs. The business houses are up to date, some extra fine dry good stores, and they have to be extra fine, for the ladies dress to kill in Mobile. There is a big colored population and some of the colored ladies dress so fine that one catches his breath when he meets one togged out in her best. We are camped just opposite a large theatre and we have a fine view of the colored entrance and took the liberty last evening to watch the colored element and try to get wise on the fashions, and we will say that it was a good sight. The streets are well paved and kept clean, the car service is good, with gentlemanly conductors. We have been enjoying ourselves very much while here. The hotel service is good and reasonable in price, taking into consideration the high price of living all over the country. We rode over the city yesterday on the street cars and saw some very lovely residences. We think Mobile has many of our northern cities beaten, when you count in the resident part with their live oak and magnolia shade trees, with their beautiful green, well kept lawns. We went out to Monroe park, which is situated on the beach of the bay and spent a couple of hours looking at strange things with our field glass we could see the vessels on the gulf of Mexico passing and repassing we could have stayed there all afternoon, but one of those Mobile rains came up and we hiked for our car and barely had time to get aboard when it did not rain, but simply poured; but the sun soon came out and everything was smiling, even the coons.

We visited the water front and put in much time looking over the different kinds of water crafts. We saw them all, from a sea gull picking his living from the surface of the water, to the stately four masted with their myriads of ropes, yard arms and tall tapering masts. Of all the vessels in port we decided that the sailers were the most dignified and graceful; but when they are in port they are perfect babies, helpless as they are dignified, but still they dance on the waves and seem to be happy, although helpless. A little tug goes down to the gulf and conducts them to their pier, where they are taken in hand by the stevedores and then there is something doing. Whole train loads of lumber are packed into her capacious maw and then there is room for more, but the time comes when she is filled and her little friend comes to conduct her back to her own element. She floats gracefully at the side of her little friend, her hands folded just as though she had given up all hopes of ever helping herself. She is towed out into the great ocean and turned loose to shift for herself, and she is equal to the emergency, too; for no sooner does she feel the swell of the mighty ocean than a great change comes over her. She is cured of the hook worm. She unfolds her white wings like a gigantic butterfly, puts up her nose as if she was drinking great draughts of the salty air and starts on her course like a greyhound and will run around the world and never tire.

But the most unique feature of the water front is the old fashioned river steamboat. There are two that navigate the Tombigbee river, one, the John Quill, had her load and was about to depart. We asked the captain G. W. Quarrells, for permission to go aboard, which was granted and we had a fine time looking over the decks of the boat. There was everything imaginable as freight, on this boat, agricultural implements, grain, live stock machinery, merchandise of all kinds and a thousand other things. The officers were very kind to us and offered to take us up the river with them and we would have gone too, if it had not been for leaving Mrs. Mc. without warning and the trip would have consumed one week's time. So when the last whistle blew we went ashore and the John Quill went her way and we turned our attention to the other that was loading. This scene reminded us of the old days when the fine boats ran on the Mississippi and Ohio rivers, except the crews; in the olden times the crews were all white men, now they are all colored. We also noticed another change in the olden time the officers, especially the mates, were hard men, who used much profanity and vulgar language. Now one hears none of this and the work goes on just the same and we believe much better. Although the negro roustabouts are very provoking sometimes and try the patience of the officers, they have found that cursing and calling names does not help the condition in the least. We further noticed that when a mate's attention was called away from a piece of work it would not be two minutes till there would be twenty boxes on the job, and all giving contrary orders, and as a natural consequence the work was soon at a standstill, but the mate would straighten them out in a good humored way and everything would go off in good shape.

These roustabouts will work together for a week and never think of sending messages to their friends up river till the boat is swinging out, then a perfect babel of voices is heard sending word to their friends, wives and sweethearts. All this is better than a show, especially to one who has never heard the noise or seen the antics cut by these happy, go lucky, people. But the most interesting thing and the best object lesson we had was the banana ship. We got permission to go on board this vessel and see the wonderful sights she displayed. When a banana ship is due a flag is run to the top of a high pole; this is the signal for the negroes all over the city that something is going to be doing in the near future and all who want to work, congregate at the pier, ready for business. A vessel will employ from 350 to 400 men; you

must be handled in a hurry and without intermission. A train of box cars is ready to receive the fruit; some of the negroes spread straw on the bottoms of the cars, while the main force is formed in a line and just as soon as the hatches are lifted the line is put into motion. The interior of the ship is laid in cross sections like the loft of a barn, about six feet apart, and the fruit packed on these sections on lofts. There are men down in the hold, working by twos who face each other lifting two bunches at a time to a platform above them, when they are lifted by two others to the next and so on till they arrive on deck, where the last two place a bunch on the shoulder of each man as he passes by. Two negroes stand at the foot of the stage and jerk of any objectionable fruit there might be on each bunch. A white man sits on an elevated platform at one side of the staging and pulls a cord that is attached to a counting machine, every time a bunch passes. Another white man stands in the shed through which the carriers pass and indicates where they shall go. All the ripe bunches are hung up by small ropes, all the green ordered to the cars. He also makes a note of this as the carriers pass. So you see this is quick work.

As above stated, we got permission to go on board, so we put Mrs. Mc. in front and fell into line and trotted up the staging, turning to the left when we got on the vessel, which threw us out of line. If we had turned to the right we would have been loaded, each with a big bunch of the delicious fruit. We could look down into the bowels of that vessel till one wondered where the bottom was and there was nothing down there but bananas and negroes. When we got tired of looking at the many different sights we fell into the line going ashore and trotted off feeling thankful that he had been permitted to see this wonderful sight with so little exertion.

We attended Sunday school and church at the Methodist church at the corner of St. Francis and Joachim streets, this morning and enjoyed both services very much. We were put into a class of elderly people and taught by an elderly lady. They were all southern and spoke the full southern language. Now "you all" have no idea of what we mean and we have not got the time or space to make "you all" wise, but if we get home all right we will tell "you all" something about it, for we are learning fast.

After Sunday school we went up stairs to a fine large auditorium, where there was a large pipe organ, which made the prettiest music we have heard in the south. The singing was superb and we had a sermon on missions from George E. T. Stevenson, chaplain U. S. navy. This gentleman was with our fleet when it sailed around the world and had his subject well in hand. He gave us a sermon that will be long remembered by all who heard it.

This afternoon and part of the night we have put in telling our little experience and addressing cards to our friends. Now you know how we have been passing our time. Wishing "you all" good health and success, we remain truly, Mr. and Mrs. D. K. McCarty.

Imperator	1913	900	80,000		

Berlin, Jan. 29.—Within less than four months the largest and most wonderful ship in the world will make her appearance in New York harbor. The Hamburg-American company's new liner Imperator will sail on her first trip from Hamburg on Wednesday, May 7, and should arrive at the American seaport one week later.

While nothing seems to be impossible with shipbuilders, there are many bold enough to prophesy that, so far as size and luxury are concerned, the Imperator will be the last word in the building of merchant ships. In both tonnage and size the new vessel surpasses the giant Olympic of the White Star line and her ill-fated sister ship, the Titanic.

The Imperator has a length of 900 feet and when complete and fully laden will displace 80,000 tons. The term "floating hotel," often applied to such ships when it is desired to emphasize their bulk, would convey, in the case of the Imperator, an impression far short of the truth. The combined capacity of the largest three hotels in New York scarcely exceeds 4,000 guests, while the Imperator will carry 5,000 passengers and will have nearly 1,000 persons in her crew.

Her deck will have the beam of Broadway at its widest part—96 feet. She will have eleven decks above the water line, equal to the height of many of the largest apartment houses. With so much space available features are possible that have never before been introduced.

The suites and cabins are to be in their design and fittings equal to the rooms in the finest hotels of Europe or America, and families will be able to cross the Atlantic in almost the same privacy as in their own homes. There are to be many dining rooms, the principal one of which will be the Louis XVI. style and will seat more than 600 persons.

Among the luxuries the Imperator has been fitted with three electric elevators, a winter garden, summer houses, a theater, gymnasium, Ritz restaurant, "cottage" cafe, ballroom,

telephones, swimming, bath and tennis courts. The swimming bath is a copy of one unearthed at Pompeii, with mosaic pavements, replicas of those discovered at Treves.

According to the announcement of the Hamburg-American company the new vessel will insure her passengers against the terrors of seasickness. This happy condition is to be brought about by the installation of the Frahn decks on board the monster, a device that reduces the motion to a minimum.

The Imperator will not be a fast boat, being built more for solid comfort than great speed. Her time across the Atlantic will be in the neighborhood of seven days. She will be equipped with internal combustion engines and two 1,500 horse power Diesel motors, and will use oil as fuel.

The most powerful Marconi apparatus ever set up at sea will be installed, the unusual height of her masts making it possible to receive or transmit messages across the broad expanse of the Atlantic ocean. It is expected that the Imperator will always be in direct communication with either Europe or America.

Miss Josephine McCann left yesterday for Springfield to attend the funeral of her uncle Hon. H. Clay Wilson.

"BLOOD IS THICKER THAN WATER"

Without good red blood a man has a weak heart and poor nerves. Thinness of the blood, or anemia, is common in young folks as well as old. Especially is it the case with those who work in ill ventilated factories—or those who are shut up indoors in winter time with a coal stove burning up the oxygen or emitting carbonic oxide gas. This blood, or blood which lacks the red blood corpuscles, in anemic people may have been caused by lack of good fresh air breathed into lungs, or by poor digestion or dyspepsia. Sometimes people suffer intense pain over the heart which is not heart disease at all, but caused by indigestion. Whatever the cause, there's just one remedy that you can turn to—knowing that it has given satisfaction for over 40 years.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

is a blood cleanser and alternative that starts the liver and stomach into vigorous action. It thus assists the body to manufacture rich red blood which feeds the heart—nerves—brain and organs of the body. The organs work smoothly like machinery running in oil. You feel clean, strong and vigorous instead of tired, weak and faint. Nowadays you can obtain Dr. Pierce's Golden Medical Discovery Tablets, as well as the liquid form from all medicine dealers, or tablets by mail, prepaid in \$1 or 50c size. Address R. V. Pierce, M. D., Buffalo, N. Y.

DR. PIERCE'S GREAT 1008 PAGE ILLUSTRATED COMMON SENSE MEDICAL ADVISER WILL BE SENT FREE, CLOTH BOUND FOR 31 ONE-CENT STAMPS.

Resting a Model.
Adolphe Menzel, the German painter,
at one time was engaged on a work
of mural decoration and kept a man posed
in an exceedingly fatiguing position
on a scaffold for two hours. The great
painter worked away, heedless of his
model's discomfort. Finally the vic-
tim called down, "Herr Professor, how
about the recess?"
"Certainly, my dear sir. Come down
right away and you shall have your
recess."
As the model was descending from
the scaffolding his limbs assumed a
position which was one for which the
artist had long been looking.
"Stop!" Menzel thundered. "Hold!
Ah, fine! Keep that while I make a
little sketch of it!"
The artist drew vigorously for half
an hour, at the end of which he called
out impatiently: "There, that will do
for now. Get up on the scaffold again.
We have had our recess."

STOCKS UNABLE TO HOLD ADVANCES
GAINS MADE DURING PREVIOUS
DAY'S SESSION ARE CONSIDER-
ABLY REDUCED.
Pressing Requirements of Short
Session Satisfied and Demand Fell
Off Resulting in Weakening in
Market Values.
(By Associated Press.)
New York, Jan. 29.—Gains made
on the standard stocks on yester-
day's rise were considerably reduced
today. Apparently the most press-
ing requirements of the short in-
terest had been satisfied and the de-
mand fell off with a resultant weak-
ening in market values. This was
especially true among leading stocks
such as Reading, Union Pacific, Steel,
Amalgamated and the Hill shares.
The specialties fared better. There
was little pressure against these
stocks and a number of them made
further gains. 'News from London
that peace negotiations had been
broken off was followed by the most
active selling of the session. Al-
though the conclusion of these ne-
gotiations had been definitely fore-
casted the news had no pronounced
influence on speculative sentiment,
bear traders were to utilize this de-
velopment with some success. In
the same way bears professed dis-
appointment at the quarterly report
of the steel corporation on the
ground that earnings were not as
large as some estimates had called
for. A factor which in the opinion
of many traders was detrimental to
the general market was the move-
ment in the American Canning stocks
which have brought them into promi-
nence during the last week. Canning
common sold today at 40 1/2, com-
pared with 28 1/2 last Wednesday.
The preferred in the meantime rose
from 11 1/2 to 12 1/2. The spectacular
fluctuations in these issues appar-
ently were the result of bold manipu-
lation and the standard issues today
did not follow the lead thus given.
There were, however, a few stocks
which developed conspicuous
strength. Harvester continued its
advance, moving up five points.
Southern Pacific was in steady de-
mand and rose over two points, buy-
ers having been stimulated by ru-
mors concerning approach of an
agreement in the negotiations for
dissolution of the Harriman merger.
Illinois Central was stronger on the
appearance of the December report,
showing a net increase of 708,000.

A False Alarm.
Over the telephone a worried voice
addressed the proprietor of a small
hardware store in a west Kentucky
town.
"Say," the speaker began, "I come
in your place today and bought one of
them dollar alarm clocks, and you set
her for me to go off at 5 o'clock in
the mornin'. D'ye remember?"
"Yes," said the hardware man, "I
remember."
"Well," went on the other, "I've just
found out that I don't have to git up
at 5 o'clock in the mornin'!"
"Glad to hear it," said the hardware
man, "but what do you want me to do
about it?"
"I want you," said the customer, "to
tell me how to unarm this clock."—
Saturday Evening Post.

A Profligate.
"I am afraid my husband is leading a
double life."
"Heaven! What has aroused your
suspicions?"
"He sneaked 50 cents out of his pay
envelope last week and tried, when I
found it out, to make me think he had
done it by mistake."—Chicago Record-
Herald.

A Long Time Out of Use.
"A man told me," says a cynic in the
American Magazine, "that during the
San Francisco earthquake he and his
wife knelt down and began the Lord's
Prayer, but forgot it in the middle. It
takes time to renew an old acquaint-
ance."

TWO MEN ESCAPE FROM COUNTY JAIL

CUT HOLE THROUGH ROOF AND USE ROPE OF BLANKETS.

Archie Dawson, Charged With Assault With a Deadly Weapon, and Lee Ball, Held For Burglary of Vincent Riley's Home, Make Good Their Escape.

Wednesday afternoon about 5:30 o'clock Archie Dawson and Lee Ball made their escape from the Morgan county jail through a hole which they had cut in the roof and by letting themselves to the ground with a rope made of blankets. The men ran south on Mauvalterre street and were last seen going south on Clay avenue.

The jail delivery was first discovered by Sheriff Rogers' little daughter, who saw the men on the street while playing at a neighbor's, and she immediately notified Charles Fanning, the turnkey at the jail. Mr. Fanning went to the east end of the jail and seeing that none of the other fifteen prisoners were attempting to escape, went to the cell room and with the aid of Willbur Rogers, locked the other prisoners in the cage. Sheriff Rogers, who was at his office in the court house, was notified and he and his deputies started a search for the men and also notified the police and authorities in surrounding towns, but at a late hour last night nothing had been heard of them.

Given Exercise in Corridor. For some time Sheriff Rogers has been allowing the prisoners the use of the corridor in the jail for exercise every afternoon from 1 until about 5:30 o'clock. Wednesday afternoon the men were let out in the corridor and to all outward appearance nothing unusual was under way. Turnkey Fanning said that he had taken a number of visitors to see some of the prisoners during the afternoon and that he had noticed nothing unusual. He said that the men made quite a little noise and that as soon as he opened the metal door leading to the corridor all of the prisoners were near the entrance, probably to avoid suspicion.

The hole through which the two prisoners escaped was cut through just above the east side of the cage. The men had secured a small pocket knife, with which they had cut through the metal ceiling and also through the two-inch boards that support the roofing. No doubt they had been working on this hole for days and each day before being locked in the cage, replaced the metal ceiling in such a manner that it was not noticeable. The boards were cut into strips and after this was gone through it was an easy matter to cut through the roofing, which is a rubberoid preparation covered with gravel.

Rope of Blankets Breaks.

In fastening the blankets the men used a bed rod which they put across the hole on the inside and tied the rope of three blankets to it. One of the men got down the rope without any mishap but the third blanket broke loose, letting the second man fall about twelve feet.

Dawson is a local lad about 17 years of age and was sent to jail to await the action of the grand jury on a charge of assault with a deadly weapon. He was committed to jail December 27 of last year. He is about 5 feet 8 inches tall, 17 years of age, smooth face, has light hair and a light complexion.

Ball is a native of Kentucky and was committed to the county prison January 6. He was arrested on a charge of burglary and larceny, being held for the theft of some jewelry and clothing at the residence of Vincent Riley, west of the city. At his preliminary hearing he was put under bond to await the action of the grand jury, and in default of which he was sent to the jail. Ball is 6 feet 1 inch in height, weighs 160 pounds, smooth face and wore a black hat, black suit and a blue shirt.

Sheriff Rogers has offered a reward of \$10 for the capture of each of the men and stated that hereafter the prisoners would be allowed no further liberty in the corridor.

ARCH MAINS SALE.

Live Stock Commanded Good Prices and Auction Well Attended.

Arch Mains, who resides 10 miles east of Virginia held a public sale Wednesday. There was a good attendance and splendid prices prevailed. J. G. Cox was the auctioneer with Virgil Robertson as clerk. LINCOLN HALL WILL BE DEDICATED FEBRUARY 12

New Building at Illinois University Was Constructed at Cost of \$250,000.

Urbana, Ill., Jan. 29.—Dedication of the Lincoln Memorial Hall, just completed, will take place on Lincoln's birthday, February 12th. It was announced to day by President Edmund J. James of the University of Illinois.

The new building was constructed at a cost of \$250,000 appropriated by the Illinois legislature in 1909. It forms a striking addition to the buildings of the University and will be used for the "study of the humanities". Special attention will be given to the study of politics and economics.

President James regards Lincoln as one of the founders of the university, as the Civil War president advocated and signed the bill devoting portions of the public domain to the establishment of state universities.

The structure is 230 feet long, flanked by wings of the same length four stories high and built of brick and marble. The scheme of decoration carries a series of memorial panels, tablets, medallions and inscriptions relating to Lincoln and his times.

RUFUS CRAMPTON VISITS HERE.

Mr. and Mrs. Rufus Crampton were in the city yesterday on their way to Virginia for a visit with Mr. Crampton's relatives. They were married Tuesday in Springfield and after a visit in Virginia will return to Kentucky where Mr. Crampton has a position with a railroad. Mr. Crampton, who was a student at Illinois college a few years ago, has a number of friends here who will extend congratulations.

TO STUDY IN EAST.

Miss Lulu Fields has gone to Philadelphia, Pa., where she will take a Post Graduate course in a hospital.

Rock Phosphate Fertilizer in bulk or in 200 pound bags. Coking Cement Co.

WILL MEET TONIGHT.

The Mathematics and Science association will hold its meeting this evening at Passavant hospital. Dr. Carl E. Black will talk on "The Practical Application of the X Ray in Surgery."

CORRECT CONCERT DATE.

Attention has been called to holders of tickets that the Passmore Trio will appear in the artists' course at the Woman's college Monday, Feb. 3, instead of Feb. 4, as formerly announced.

Our Query and Reply Department

What was the Ancient Form of Books?—Books were originally written on finely-prepared skins or parchment, united together in rolls; all the Scriptures in use among the ancient Hebrews were in this form. These roll books were called "volumina," hence the English word volume as it refers to books.

What were the Masonic Guilds of the Middle Ages?—They were fraternities of practical architects and masons, who were employed to rear the ecclesiastical structures which still survive to attest the piety of the founders. They moved from country to country, fostered by the church, and protected by the rulers who required their services.

What was the Arm in Arm Convention?—A name given to a convention of Republicans who supported President Johnson's policy of reconstruction. So named because members from Massachusetts and South Carolina entered the hall arm in arm.

Who was called "Young Hickory"?—Andrew Jackson was called "Old Hickory." James K. Polk was born in the same state as Jackson, North Carolina, and settled in the same state, Tennessee, and a certain resemblance in their political feelings led the admirers of Polk to call him "Young Hickory."

Who was the Plumed Knight?—A reference to James G. Blaine in the speech of Robert G. Ingersoll, who nominated Blaine as a candidate for president at the Cincinnati convention in 1876. Ingersoll said: "Like an armed warrior, like a plumed knight, James G. Blaine marched down the halls of the American congress and threw his shining lance, full and fair, against the brazen forehead of every defamer of this country and maligner of its honor."

How were Books Prepared before the Invention of Printing?—Among the Greeks and Romans, professional transcribers were employed to write copies of books for general circulation. The process of transcription was both slow and expensive.

What is an Annular Eclipse of the Sun?—When the moon covers the face of the sun, excepting the edge all round, so as to leave a ring of light.

What is Remarkable about the Eyes of Insects?—They are usually much projected, and consist of a vast number of distinct lenses, which enable them to see on all sides.

Who were the Sophists?—They were a class of reasoners contemporary with Socrates and Pericles, who took their designation from sophos, wise; but they brought reasoning into contempt by endeavoring to cast uncertainty over the most obvious truths. Hence, specious arguments are called sophistry.

What is Latent Heat?—Heat which is concealed in a body, and does not manifest its presence under ordinary circumstances.

What is the summer population of birds in Illinois?—From investigation made by Professor S. A. Forbes, of the University of Illinois, the total summer population of birds in Illinois numbers about thirty and one half million, of which five and one half million are English sparrows.

What is the highest ascent made in a balloon?—The highest balloon ascension of which there is any authentic record was that of M. Berson, July 31, 1901. He had with him a provision of compressed oxygen, and took observations at 34,500 feet at which time he became unconscious. As he was still rising he probably reached the height of 36,000 feet.

What was the Renaissance?—The French term "Renaissance" signifies a new birth or renewal, and is applied to the revival of art and literature in Italy and France in the 16th century.

Who are the Landseers?—They are a family of artists—the father, John Landseer, an engraver (died in his eighty-third year, 1852), and three sons: Thomas, engraver; Charles, a painter; and Sir Edwin (died 1873), celebrated for his numerous fine paintings of deer and other animals.

MIDDLEMAN IS CAUSE OF HIGH COST OF LIVING

DIRECT RELATIONS BETWEEN PRODUCER AND CONSUMER IS REMEDY

President of Kansas Agricultural College in Speaking Before Kansas Society Also Points Out High Price of Farm Land.

CHICAGO, JAN. 29.—Co-operation and direct business relations between producer and consumer will go a long way toward solving the high cost of living problem, Dr. H. J. Waters, president of the Kansas State Agricultural college, said tonight in speaking at the annual banquet of the Kansas Society of Chicago.

"High cost of living is due, not so much to the price the farmer obtains for his product as is the high cost of getting these products from the farm to the consumer," he said. "A remedy which will bring large and immediate relief is for the producer and the consumer to establish direct relations."

"Farm products in general are not too high at the farmers' railroad siding or in the wholesale markets. Some products are not high enough. The present scarcity of meat, for example, is due to the fact that livestock prices have been too low to encourage the farmer to raise animals. This at once imposes on our farmers a type of agriculture that wastes the soil."

Dr. Waters also pointed out that the increase of farm lands values in the last ten years has been as great as they were from the time of the discovery of America until 1900.

"At the present price of land and labor it takes more than average business management in farming to pay a reasonable interest on the investment," he said.

The banquet commemorated the fifty-second birthday of the state. Several hundred sunflowers, which the committee purchased after great effort, were among the decorations. None of the flowers was to be found in Chicago.

UNDERWRITERS RECOMMENDATIONS

H. L. Townsend, special agent for the Illinois Board of Fire Underwriters has returned to Chicago after completing his investigation of fire protection conditions in Jacksonville. As state yesterday Mr. Townsend examined all fire apparatus and equipment here including the fire alarm system. He also had interviews with Commissioner Engel, Chief Wood of the fire department and various city officials. It is understood that Mr. Townsend suggested the purchase of a motor truck for the fire engine and an overhauling of the fire system. Further it is stated that he made recommendations as to the organization and discipline of the fire department. The investigation was made by the underwriters because of the report of alleged inefficiency in the handling of the fire at Capt. Smith's property. Jacksonville is now rated among the insurance companies in class three and Mr. Townsend said that it would be necessary to follow out his suggestions if Jacksonville is to remain in the third class.

RETURNS FROM WESTERN TRIP.

M. L. Hildreth has returned from a two weeks trip in the west. He spent most of his time at Salt Lake City visiting his uncle M. T. Gilsborn who is now eight-five years of age. In fact he made the trip to see Mr. Gilsborn and to attend to some matters of business for him. Mr. Gilsborn formerly lived at Edna Mo., and was one of the gold seekers who went west in '49. He was successful in his mining enterprises and to day owns valuable mining properties. Mr. Hildreth also spent a few days in Colorado and greatly enjoyed the whole trip.

GREAT \$2,300,000 DRY DOCK IS COMPLETED.

Seattle, Wash., Jan. 29.—The Casson of the great \$2,300,000 dry dock at the Puget Sound navy yards was put into position yesterday and pumps emptied the water from the basin. No exercises marked the completion of the massive structure, the construction of which has occupied three years. The dock will accommodate any war vessel now afloat or under construction. Its length, over all is 863 feet and the depth 47 feet.

The Battleship Oregon will be the first vessel docked.

QUINCY DROPS OUT OF TRI-CITY DEBATING LEAGUE

Prospects Are That Jacksonville High and Springfield High Will Have a Duel Debate.

Announcement comes from Principal Ehrman at Quincy that the Quincy High school will not be able to participate in the Tri-City Debating league this year on account of the date, March 21, being the time their school has a spring vacation. They suggested some other date but that will be impossible for the Jacksonville school, on account of the teachers' state meeting in Springfield, March 28, and other dates taken.

Both Springfield and Jacksonville have been preparing for the debate and the local debaters were to be picked in a few days. The fact of Quincy dropping out will make it necessary to have only one set of debaters, and not that trio, if Springfield should not consent to a dual contest. The Springfield High school has been one of the live wires in the league, and, as they were willing to have a duel debate with Quincy when there was some talk that Jacksonville would not enter this year, there is every reason to feel that the capital city school will favor the arrangement which Principal Gore expects to make to them.

PHILIPPINE BILL ATTACKED BY TAFT

PRESIDENT VIGOROUSLY DENOUNCES MEASURE NOW PENDING

Declares Bill Would Reverse the Verdict of a Decade and Give Up All Our Achievements For a New Experiment.

WASHINGTON, JAN. 29.—President Taft in his farewell speech to the Ohio society of Washington tonight vigorously attacked the bill now pending in congress proposing autonomy and independence in eight years for the Philippines.

"I am not going to ask the president," he said, "that the Democratic party is going to reverse the policy that has vindicated itself by ten years experience merely for the purpose of conforming to the cob-webbed planks of forgotten platforms? Will they not, before they take such an irretrievable step, obtain reliable information as to the condition that exist in the islands? This issue has been relegated to the Limbo of free silver or the narrow doctrine of states rights. Those who continue to give out their lucubrations on the Philippines are now less than those who expect to attend the next inaugural ball."

Speaker Clark, who followed the president declined to debate with him the Democratic policy of independence for the Philippines.

"I am not going to debate the question of Philippine independence with President Taft," said Mr. Clark. "I have no inclination to make a Philippine speech, and I'm not going to, either. I wish we were out of there in as good shape as we were when we got in. According to the Democratic platform—which I did not make—we are committed to a policy. I believe that when a man gets office on a platform he should religiously live up to the planks that are in that platform."

President Taft began his address with an eulogy of President McKinley. From praise of Mr. McKinley he turned to the Philippines and said in part:

"After three administrations and more have passed, and after two successive presidential campaigns with silence on the Philippines as an issue, the country is asked to make a change. We are asked to meet a recrudescence of opposition to our Philippine policy and the threat to run back the hands of time; to reverse the verdict of a decade and to give up all our achievements for a new experiment, which can only result in confusion and humiliation and involves us in international complications and brings us again with damaged prestige to an abandonment of that policy."

"Those of us who, by reason of our information and experience believe that a reversal of that policy now will lead to national humiliation and embarrassment, should not keep our mouths closed, but we have a right to appeal to those who are coming into power in the next administration—the executive and the legislators—to inform themselves well before they depart from a course that has been for utmost benefit of the people of the Philippines. The Philippines are not ready yet for self government and no influence could more detrimental upon their future than the enactment of the measure now pending in the house of representatives providing for a change in their government."

Senators Burton and Pomeroy and Representative Cannon also made addresses. Justice Day of the supreme court was toastmaster, and Justices McKenna, Lurton and Lamar were among the guests at the speakers' table.

SECOND VICTIM OF PETERSBURG FIRE DIES.

Springfield, Ill., Jan. 29.—Edwin Jackson died at St. Johns Hospital in this city today. He was the second victim of the fire which destroyed his home near Petersburg January 8th., resulting in the death of his mother, Mrs. Louisa Jackson and his sister, Mrs. Catherine Jackson, being very badly burned. Mrs. Jackson died from her burns January 17th, and the daughter is in a critical condition at St. Johns Hospital. She has not been informed of her brother's death.

MRS. M. H. CARTER PASSED AWAY WEDNESDAY NIGHT

Shock From Fall Which She Received Wednesday Afternoon Proves Fatal—Funeral Announcement Later.

Wednesday afternoon Mrs. M. H. Carter, a long time resident of this city, suffered a fall at her residence 921 West State street which resulted in her death Wednesday night at 10:30 o'clock.

Mrs. Carter was preparing to come up town about 2:30 o'clock yesterday afternoon and just as she closed the door to her home the door knob pulled off causing her to lose her balance and fall. She sustained a broken shoulder and was quite badly bruised. A number of neighbors ran to her assistance and carried her into the house and Mrs. J. A. Day and W. H. Weirich were called and did all in their power to relieve her suffering, but the shock was so great that she passed away about 10:30 o'clock last night.

Mrs. Carter, whose maiden name was Mary Gordon, was born and reared in the Lynnville neighborhood and had lived until March 9 she would have attained the age of 82 years. She was the widow of the late John Carter, who died a number of years ago and she is survived by two daughters, Mrs. A. S. Mitchell of Summit, N. J., and Miss Grace Carter of this city. One son, John G. Carter of Chicago; one brother, William Gordon of Scott county and two sisters, Mrs. S. G. Beesley of this city and Mrs. C. W. Jones of Lynnville.

Mrs. Carter was a woman of strong character and vigorous mind and intellect. Since the death of her husband she had managed a somewhat extensive estate and was a business woman of unusual ability. Mrs. Carter hated shams and insincerity and her character was marked for frankness and openness. She had clear and positive theories about what she deemed right and followed closely in the path of duty. At heart a woman of great tenderness and kindness, she was liberal and charitable and in a quite and unostentatious way was helpful in many people. In her going Jacksonville has lost a valued and influential member of the community.

THUMB OF KID GLOVE MAY SEND PRISONER TO PENITENTIARY

Man Accused of Highway Robbery Wore Torn Glove Which May Convict Him.

Chicago, Jan. 29.—The mute evidence of the thumb of a kid glove may send Ira Loughost, a negro, to prison on a charge of highway robbery. Loughost was arrested today charged with being one of three men who robbed Francisco Dottavio last night. Dottavio could not identify the suspect but it was discovered that a thumb was torn from one of the gloves the prisoner wore and this coupled with the fact that Dottavio pulled a thumb off one of his assailant's gloves caused the negro to be held. It was said by the police that the thumb Dottavio obtained fit the remained of the negro's glove. Loughost will be arraigned tomorrow and the two pieces of glove will be the only evidence offered against him.

STRANGE ACTIONS CAUSE SAN FRANCISCO MAN'S ARREST

Attaches of Governor's Office in Denver Believe He Intended Governor Bodily Harm.

Denver, Jan. 29.—Arthur Larcher, 25 years old, who arrived in Denver from San Francisco a week ago, today was arrested in Governor Elias M. Ammon's office, because of his peculiar actions which led the attaches of the office to believe he intended harm to the governor. When searched a large calibre revolver was found in his pocket. A few days ago Larcher was granted an audience with the governor and upon his plea of poverty, Governor Ammons gave him two dollars. When he visited the office again today he said he had come to repay the loan. His actions aroused suspicion and the governor's secretary called the police, who arrested Larcher, who now is confined in the county hospital.

WILSON ANNOUNCES CONFERENCES WILL END

WILL DEVOTE TIME NOW TO DUTIES AS GOVERNOR

Is Looking Over Field to Pick Man for Secretary of Proposed Department of Labor Which He Thinks Will Be Created.

TRENTON, N. J., JAN. 29.—President-elect Wilson announced tonight that his conferences with prominent Democrats generally about "men and politics" which have been in progress ever since he returned from Bermuda, were now at an end. Henceforth, until March 4th., he will devote practically his entire time to his duties as governor of New Jersey. The president-elect said he did not plan to see any members of congress between now and the end of his term as governor, but that, of course he would receive some of those who sought him on questions that might come up in the interval.

The governor's statement prompted the inquiry as to whether he had made up his mind personnel of the cabinet.

"Of course there are no fixtures yet," he said, "I'm still trying to keep my mind open."

Incidentally Mr. Wilson revealed that he was looking over the field to pick a man as Secretary of the proposed department of labor.

"Everybody seems to be agree that the bill now pending before congress creating a department of labor will pass," said the governor. For the first time in the history of the state the governor sat to day with the legislature. Mr. Wilson watched the legislature elect William Hughes to the United States senate. The governor said he had never seen a senator elected and extended his congratulations in person to Senator-elect Hughes.

All the Tone Quality of the \$200 Instruments
in this one at \$59

which is the spot cash price, but which includes an outfit of 12 double-disc records (24 selections).

And you can pay for it at the rate of \$5 a month

The Offer

We agree to deliver to any address in this city one of these Grafonolas, together with an assortment of 12 double-disc records (24 selections) to be selected by us, or by you if you prefer.

The machine and the records will be sent on two days' free trial to any home in the city.

So confident are we that the instrument will please even the most critical, that we agree to refund all money paid by any purchaser who may not in every way be satisfied with the instrument.

We do this because we intend either to place a Grafonola in every home in the city or at least give every house holder in the city an opportunity to own one.

THE INSTRUMENT

This beautiful Grafonola "Favorite" the first instrument of the latest improved type to be offered at anything like its price, is probably the best that its price will ever buy. It seems pretty clear that the limit has been reached. As a musical instrument, it is all any musical instrument can be and all that those costing \$200 can claim to be.

The cabinet is built of the choicest mahogany (or of beautiful quarter-sawn oak) polished like the costliest piano. The "Favorite" plays any size of record—three at one

winding, and can be rewound while running, the motor being a powerful triple-spring drive, absolutely silent and always positive and reliable. The tone arm leads the sound wave from the reproducer into the sound chamber, where it is amplified and poured out through the front, subject a reduction in volume by the partial or complete closing of the double doors. The start and stop lever is combined with a speed regulator lever all in handy reach. The turn able stands above the top of the cabinet

when the lid is raised, admitting easy access to the record and needle.

THE RECORDS

The outfit of records we have selected from the best selling and most popular of all classes and includes famous Sextette from "Lucia" and equal ly famous Quartette from "Ri-zoletto", which ought to be extremely interesting to any of your own selection of records machines and have paid \$13 for those two selections alone. You are at liberty to make your own selection of records if you prefer.

man, of any means, may be proud to own and use for a lifetime.

In addition to those 24 selections, we will give you, free, one of our "Demonstration" double disc records, which everybody admits is worth at least sixty cents of any man's money. All of these records are guaranteed to be superior to all others in tone, in surface and in durability.

They will outwear any other make of records almost two to one.

We have other Grafonolas from \$25 to \$200
